Librarian of the School of Medicine

Office: Medical Library

Home Address: 2305 Elliston Place

OVERTON WILLIAMS

Bursar of the University

Office: College Hall

Home Address: 303 Chesterfield

THE FACULTY AND TEACHING STAFF

JAMES HAMPTON KIRKLAND, PH. D., LL.D., D. C. L.

Chancellor of the University

A. B., 1877, and A. M., 1878, Wofford College; Ph. D., University of Leipsic, 1885; LL. D. University of North Carolina, University of Missouri, Wesleyan, University of Pittsburgh, and Baylor University; D. C. L., University of the South, 1902; Professor of Greek and German, Wofford College, 1881-1883; Professor of Latin, Vanderbilt University, 1886-1893.

Belle Meade.

PROFESSORS

RICHARD A. BARR, M. D.

Professor of Clinical Surgery

M. D., Vanderbilt University, 1892; Adjunct Professor of Abdominal Surgery, 1901-1902; Professor of Abdominal Surgery, 1902-1911; Professor of Surgery and Clinical Surgery, 1911-1925; Professor of Clinical Surgery, Vanderbilt University, 1925—.

800 19th Ave., S.

R. WALLACE BILLINGTON, M. D.

Professor of Clinical Orthopedic Surgery

M. D., Vanderbilt University, 1906; Demonstrator of Anatomy, 1907-1910; Lecturer, Adjunct Professor and Associate Professor of Clinical Orthopedic Surgery, 1911-1926; Professor of Clinical Orthopedic Surgery, Vanderbilt University, 1926—.

Doctors' Building.

R. BOYD BOGLE, M. D., D. D. S.

Professor Emeritus of Clinical Dental Surgery

M. D., Vanderbilt University, 1894; D. D. S., Northwestern University, 1895; Professor of Orthodontia and Anaesthesia, University of Tennessee, 1895-1905; Professor of Exodontia, Roentgenology, and Mouth Surgery, Vanderbilt University, 1905-1926; Dean, Vanderbilt University School of Dentistry, 1919-1926; Associate Professor of Clinical Dental Surgery, 1930-1933; Professor of Clinical Dental Surgery, Vanderbilt University, 1933—.

Golf Club Lane.

PERRY BROMBERG, M. D.

Professor of Clinical Urology

M. D., University of Tennessee, 1895; Demonstrator of Anatomy and Assistant to the Chair of Surgery, 1895-1899; Professor of Physiology, University of Tennessee, 1899-1909; Professor of Urology, University of Nashville and Tennessee, 1909-1911; Professor of Urology, 1911-1925; Professor of Clinical Urology, Vanderbilt University, 1925—.

Bennie-Dillon Bldg.

BARNEY BROOKS, M. D.

Professor of Surgery

B. S., University of Texas, 1905; M. D., Johns Hopkins University, 1911; Assistant, Instructor, Associate, and Associate Professor of Surgery, Washington University, 1912-1925; Professor of Surgery, Vanderbilt University, 1925—.

Belle Meade Park.

WORCESTER ALLEN BRYAN, M. D.

Professor of Clinical Surgery

A. B., 1893, M. A., 1897, Cumberland University; M. D., Vanderbilt University, 1899; Assistant and Associate in Surgery, 1900-1910; Professor of Surgery and Clinical Surgery, 1911-1925; Professor of Clinical Surgery, Vanderbilt University, 1925—.

Medical Arts Building.

LUCIUS EDWARD BURCH, M. D.

Professor of Clinical Obstetrics and Gynecology

M. D., Vanderbilt University, 1896; Professor of Gynecology, 1902-1925; Dean and Acting Dean, School of Medicine, 1914-1925; Professor of Clinical Gynecology and Obstetrics, Vanderbilt University, 1925—.

2112 West End Ave.

HORTON R. CASPARIS, M. D.

Professor of Pediatrics

A. B., University of Texas, 1915; M. D., Johns Hopkins, 1919; Instructor in Pediatrics, 1920-1922, and Associate in Pediatrics, Johns Hopkins Medical School, 1922-1925; Associate Professor of Medicine in charge of Pediatrics, 1925-1928; Professor of Pediatrics, Vanderbilt University, 1928—.

3322 West End Ave.

SAM C. COWAN, M. D.

Professor of Clinical Obstetrics

M. D., Vanderbilt University, 1909; Demonstrator of Anatomy, 1912-1915; Chief of Outdoor Obstetrical Dispensary, 1915-1923; Assistant Professor of Obstetrics, 1923-1925; Assistant Professor of Clinical Obstetrics, 1925-1927; Professor of Clinical Obstetrics, Vanderbilt University, 1927—.

Doctors' Building.

MARVIN McTYEIRE CULLOM, M. D.

Professor of Clinical Otolaryngology

A. B., 1894, and M. D., 1896, Vanderbilt University; Clinical Professor of Diseases of the Eye, Ear, Nose and Throat, 1916-1925; Professor of Clinical Ophthalmology and Otolaryngology, 1925-1931; Professor of Clinical Otolaryngology, Vanderbilt University, 1931—.

Bennie-Dillon Building.

ROBERT SYDNEY CUNNINGHAM, M. D.

Professor of Anatomy

B. S., and M. A., 1911, Davidson College; M. D., Johns Hopkins Medical School, 1915; Assistant in Anatomy, 1915-1916; Instructor, 1916-1918; Associate, 1919-1922; Associate Professor, Johns Hopkins Medical School, 1922-1925; Professor of Anatomy, Vanderbilt University, 1925—.

2305 Elliston Place.

DUNCAN EVE, M. D.

Professor of Clinical Surgery

A. B., University of Nashville, 1870; A. M., Greenville and Tusculum University, 1879; M. D., Bellevue Hospital Medical College, 1874; Dean Medical Department, University of Tennessee, 1897-1905; Professor of Surgery and Clinical Surgery, 1905-1925; Professor of Clinical Surgery, Vanderbilt University, 1925—.

2112 West End Ave.

WALTER EUGENE GARREY, PH. D., M. D.

Professor of Physiology

B. S., Lawrence College, 1894; Ph. D., University of Chicago, 1900; M. D., Rush Medical College, 1909; Fellow, Assistant and Instructor, University of Chicago, 1895-1899; Assistant Professor and Professor, Cooper Medical College, 1900-1910; Associate and Assistant Professor, Washington University, 1910-1916; Professor of Physiology, Tulane University, 1916-1925; Professor of Physiology, Vanderbilt University, 1925—.

Tamworth Apt.

ERNEST W. GOODPASTURE, M. D.

Professor of Pathology

A. B., Vanderbilt University, 1907; M. D., Johns Hopkins University, 1912; Instructor in Pathology, Johns Hopkins University, 1912-1915; Instructor and Assistant Professor in Pathology, Harvard University, 1915-1922; Professor of Pathology, University of the Philippines, P. I., 1922; Professor of Pathology, Vanderbilt University, 1925—.

408 Fairfax Ave.

WILLIAM DAVID HAGGARD, M. D.

Professor of Clinical Surgery

M. D., University of Tennessee, 1893; Professor of Gynecology and Abdominal Surgery, University of Tennessee, 1899-1912; Professor of Surgery and Clinical Surgery, 1913-1925; Professor of Clinical Surgery, Vanderbilt University, 1925—.

Doctors' Building.

ALBERT W. HARRIS, M. D.

Professor of Clinical Neurology and Psychiatry

M. D., Vanderbilt University, 1901; Associate Professor of Neurology, 1909-1925; Associate Professor of Clinical Neurology and Psychiatry, 1925-1927; Professor of Clinical Neurology and Psychiatry, Vanderbilt University, 1927—.

Doctors' Building.

WILLIAM GILLIAM KENNON, M. D.

Professor of Clinical Otolaryngology

M. D., University of Pennsylvania, 1908; Associate Professor of Eye, Ear, Nose and Throat, Vanderbilt University, 1919-1925; Associate Professor of Clinical Ophthalmology and Otolaryngology, 1925-1929; Professor of Clinical Ophthalmology and Otolaryngology, 1929-1931; Professor of Clinical Otolaryngology, Vanderbilt University, 1931—.

Doctors' Building.

PAUL DUDLEY LAMSON, M. D.

Professor of Pharmacology

A. B., 1905, M. D., 1909, Harvard; Lecture Assistant in Pharmacology, University of Wurzburg, 1912-1913; Assistant in Experimental Therapeutics, 1914-1915; Associate in Pharmacology, 1916-1920; Associate Professor in Pharmacology, Johns Hopkins Medical School, 1920-1925; Professor of Pharmacology, Vanderbilt University, 1925—.

2134 Jones Ave.

WALLER S. LEATHERS, M. D., LL. D.

Dean, and Professor of Preventive Medicine and Public Health

M. D., University of Virginia, 1895; LL. D., University of Mississippi, 1924; Professor of Biology, University of South Carolina, 1897-1899; Professor of Biology, 1899-1903; Professor of Physiology and Hygiene, 1903-1910; Dean of Medical School, University of Mississippi, 1906-1924; Executive Officer, Mississippi State Board of Health, 1910-1924; Professor of Preventive Medicine and Public Health, 1924—; Associate Dean, 1927-1928, and Dean, School of Medicine, Vanderbilt University, 1928—.

2004 20th Ave. S.

*THORVALD MADSEN, M. D.

Visiting Professor of Pathology

D., Emory University, 1920; Professor of Medicine, Severance University Medical College, Seoul, Korea, 1921-1926; Assistant in Clinical Medicine, 1926-1928; Instructor in Clinical Medicine, 1928-1931; Assistant Professor of Clinical Medicine, 1931-1935; Associate Professor of Clinical Medicine, Vanderbilt University, 1935-.

Doctors' Building.

SAM L. CLARK, PH. D., M. D.

Associate Professor of Anatomy

B. S., Vanderbilt University, 1922; M. S., Northwestern University, 1923; Ph. D., Washington University, 1926; M. D., Vanderbilt University, 1930; Assistant Professor of Anatomy, Northwestern University, 1926-1929; Assistant Professor of Anatomy, 1930-1931; Associate Professor of Anatomy, Vanderbilt University, 1931-.

Glen Leven Road.

ROBERT C. DERIVAUX, M. D.

Associate Professor of Clinical Medicine

M. D., Washington University, 1911; Acting Professor of Preventive Medicine, 1920-1923; Instructor in Medicine, 1923-1925, and in Clinical Medicine, 1925-1927; Assistant Professor of Clinical Medicine, 1927-1935; Associate Professor of Clinical Medicine, Vanderbilt University, 1935-.

Medical Arts Building.

WILLIAM C. DIXON, M. D.

Associate Professor of Clinical Gynecology

M. D., Vanderbilt University, 1903; Assistant to the Chair of Gynecology, 1903-1905; Assistant to the Chairs of Medicine and Surgery, 1905-1906; Assistant to the Chair of Gynecology, 1906-1911; Associate Professor of Medicine, 1911-1917; Associate Professor of Gynecology, 1919-1925; Associate Professor of Clinical Gynecology, Vanderbilt University, 1925-.

Doctors' Building.

KATHARINE DODD, M. D.

Associate Professor of Pediatrics

A. B., Bryn Mawr College, 1914; M. D., Johns Hopkins Medical School, 1921; Assistant in Pediatrics, Johns Hopkins Medical School, 1922-1923; Instructor in Pediatrics, 1926-1928; Assistant Professor of Pediatrics, 1928-1929; Associate Professor of Pediatrics, Vanderbilt University, 1929-.

Estes Ave.

BEVERLY DOUGLAS, M. D., D. Sc.

Associate Professor of Surgery, and Assistant Dean

Litt. B., Princeton, 1914; M. D., Johns Hopkins University, 1918; M. S., (Clinical Medicine), Yale University, 1921; D. Sc., University of Lyons, 1925; Instructor in Surgery, 1919-1921; Instructor and Assistant in Surgery, Yale University, 1921-1922; Assistant Professor of Surgery, 1925-1928, and Assistant Dean, 1926-1928; Associate Professor of Surgery, and Assistant Dean, Vanderbilt University, 1928—.

412 Fairfax Ave.

DUNCAN EVE, JR., M. D.

Associate Professor of Clinical Surgery

M. D., Vanderbilt University, 1904; Demonstrator in Surgery, 1904-1912; Associate Professor of Surgery, 1912-1925; Associate Professor of Clinical Surgery, Vanderbilt University, 1925—.

2112 West End Ave.

WALTER O. FAUGHT, D. D. S.

Associate Professor of Clinical Dental Surgery

D. D. S., Vanderbilt University, 1925; Instructor in Operative Dentistry; Assistant to the Chair in Exodontia and Oral Surgery, 1925-1926; Assistant Professor of Clinical Dental Surgery, 1933-1935; Associate Professor of Clinical Dental Surgery, Vanderbilt University, 1935—.

Medical Arts Building.

TINSLEY RANDOLPH HARRISON, M. D.

Associate Professor of Medicine

A. B., University of Michigan, 1919; M. D., Johns Hopkins University, 1922; Assistant in Medicine, Johns Hopkins Medical School, 1924; Instructor in Medicine, 1925-1928; Assistant Professor of Medicine, 1928-1932; Associate Professor of Medicine, Vanderbilt University, 1932—.

403 S. Wilson Blvd.

J. M. JOHLIN, PH. D., D. Sc.

Associate Professor of Biochemistry

B. Sc., University of Chicago, 1908; Ph. D., University of Berlin, 1910; D. Sc., University of London, 1925; Assistant Professor of Chemistry, 1912-1914, and Associate Professor of Chemistry, Syracuse University, 1914-1917; Associate Professor of Biochemistry, Vanderbilt University, 1925—.

Hampton Ave.

GEORGE SUMMERS JOHNSON, M. D.

Associate Professor of Surgery

M. D., Washington University, 1925; Assistant in Surgery, 1925-1927; Instructor in Surgery, 1927-1930; Assistant Professor of Surgery, 1930-1936; Associate Professor of Surgery, Vanderbilt University, 1936—.

3010 West End Ave.

HOLLIS E. JOHNSON, M. D.

Associate Professor of Clinical Medicine

M. D., Vanderbilt University, 1921; Assistant in Anatomy, Vanderbilt University, 1917-1919; Instructor in Pulmonary Tuberculosis, Meharry Medical School, 1921-1927; Assistant in Medicine, 1922-1925; Assistant in Clinical Medicine, 1925-1926; Instructor in Clinical Medicine, 1926-1931; Assistant Professor of Clinical Medicine, 1931-1935; Associate Professor of Clinical Medicine, 1935—.

Medical Arts Building.

ALVIN E. KELLER, M. D.

Associate Professor of Preventive Medicine and Public Health

M. D., Johns Hopkins University, 1924; County Health Officer, Alabama, 1924-1927; Instructor in Preventive Medicine and Public Health, 1927-1930; Assistant Professor of Preventive Medicine and Public Health, 1930-1936; Associate Professor of Preventive Medicine and Public Health, Vanderbilt University, 1936—.

2301 Westwood Ave.

CHARLES EDWIN KING, PH. D.

Associate Professor of Physiology

Ph. B., Heidelberg University, Ohio, 1908; M. S., 1912; Ph. D., University of Chicago, 1914; Assistant Professor, Associate Professor and Professor of Physiology, University of North Dakota, 1914-1919; Professor of Physiology, University of Alabama, 1918-1920; Acting Professor of Physiology, 1920-1925; Associate Professor of Physiology, Vanderbilt University, 1925—.

Woodmont Blvd.

JOHN M. LEE, M. D.

Associate Professor of Clinical Pediatrics

M. D., University of Tennessee, 1908; Assistant to the Chair of Pediatrics, 1919-1922; Instructor in Pediatrics, 1922-1925; Instructor in Clinical Pediatrics, 1925-1928; Assistant Professor of Clinical Pediatrics, 1928-1935; Associate Professor of Clinical Pediatrics, Vanderbilt University, 1935—.

Doctors' Building.

MILTON S. LEWIS, M. D.

Associate Professor of Clinical Obstetrics

M. D., Vanderbilt University, 1916; Assistant in Pediatrics and Obstetrics, 1924-1925; Assistant in Clinical Pediatrics and Clinical Obstetrics, 1925-1930; Instructor in Clinical Obstetrics and Assistant in Clinical Pediatrics, 1930-1932; Assistant Professor of Clinical Obstetrics, 1932-1935; Associate Professor of Clinical Obstetrics, Vanderbilt University, 1935—.

Bennie-Dillon Building.

GUY M. MANESS, M. D.

Associate Professor of Otolaryngology

A. B., University of Missouri, 1923; M. D., Washington University, 1925; Assistant in Ophthalmology and Otolaryngology, 1926-1928; Instructor in Ophthalmology and Otolaryngology, 1928-1931; Assistant Professor of Otolaryngology, 1931-1933; Associate Professor of Otolaryngology, Vanderbilt University, 1933—.

Haverford Ave.

JOHN OWSLEY MANIER, M. D.

Associate Professor of Clinical Medicine

A. B., Vanderbilt University, 1907; M. D., University of Pennsylvania, 1911; Assistant to Chair of Medicine and Assistant Professor of Medicine, 1913-1925; Assistant Professor of Clinical Medicine, 1925-1926; Associate Professor of Clinical Medicine, Vanderbilt University, 1926—.

Doctors' Building.

KARL ERNEST MASON, PH. D.

Associate Professor of Anatomy

A. B., Acadia University, 1921; Ph. D., Yale University, 1925; Instructor in Anatomy, 1926-1929; Assistant Professor of Anatomy, 1929-1930; Associate Professor of Anatomy, Vanderbilt University, 1930—.

2503 Kensington Place.

C. C. McCLURE, M. D.

Associate Professor of Radiology

M. D., Vanderbilt University, 1918; Instructor in Surgery in charge of Radiology, 1925-1928; Assistant Professor of Clinical Surgery in charge of Radiology, Vanderbilt University, 1928-1930; Associate Roentgenologist at the Cleveland Clinic, 1930-1931; Assistant Professor of Clinical Radiology, Vanderbilt University, 1932-1936; Associate Professor of Radiology, 1936—.

Doctors' Building.

THOMAS D. MCKINNEY, M. D.

Associate Professor of Clinical Surgery

M. D., Vanderbilt University, 1913; Instructor in Anatomy, 1915-1916; Assistant to Chair in Gynecology, 1914-1915; Lecturer in Gynecological Pathology, 1915-1918, and Assistant in Surgery 1919-1926; Assistant Professor of Clinical Surgery, 1926-1936; Associate Professor of Clinical Surgery, Vanderbilt University, 1936—.

Doctors' Building.

HENRY E. MELENEY, M. D.

Associate Professor of Preventive Medicine and Public Health

A. B., Dartmouth College, 1909; M. D., Columbia University, 1915; Resident Pathologist, Presbyterian Hospital, N. Y., 1919-1920; Associate in Pathology, 1920-1922; Associate in Medicine, 1922-1924, and Associate Professor of Medicine, Peking Union Medical College, 1924-1927; Associate Professor of Preventive Medicine and Public Health, Vanderbilt University, 1928—.

2110 W. Ashwood Ave.

WALTER M. MORGAN, D. D. S.

Associate Professor of Clinical Dental Surgery

D. D. S., Vanderbilt University, 1916; Assistant in Physiology, 1916-1919; Assistant in Oral Surgery and Principles of Surgery, 1917-1923; Associate Professor of Clinical Dental Surgery, Vanderbilt University, 1930—.

Medical Arts Building.

BENJAMIN HOWARD ROBBINS, M. D.

Associate Professor of Pharmacology

A. B., Berea College, 1925; M. S., 1926; M. D., Vanderbilt University, 1933; Assistant in Pharmacology, 1926-1933; Assistant Professor of Pharmacology, 1933-1935; Associate Professor of Pharmacology, Vanderbilt University, 1935—.

207 24th Ave., S.

HENRY CARROLL SMITH, M. D.

Associate Professor of Clinical Ophthalmology

M. D., Vanderbilt University, 1925; Instructor in Clinical Ophthalmology, 1931-1933; Assistant Professor of Clinical Ophthalmology, 1933-1935; Associate Professor of Clinical Ophthalmology, Vanderbilt University, 1935—.

Medical Arts Building.

HOLLAND M. TIGERT, M. D.

Associate Professor of Clinical Gynecology

M. D., University of Nashville, 1901; Professor of Diseases of Women, University of Tennessee, 1909-1911; Associate Professor of Gynecology, 1911-1925; Associate Professor of Clinical Gynecology, Vanderbilt University, 1925—.

Doctors' Building.

JACK WITHERSPOON, M. D.

Associate Professor of Clinical Medicine

M. D., Vanderbilt University, 1910; First Assistant in Histology and Pathology and Assistant in Medicine, 1911-1914; Assistant in Medicine, 1914-1917; Assistant Professor of Medicine, 1917-1918; Associate Professor of Medicine, 1919-1925; Associate Professor of Clinical Medicine, Vanderbilt University, 1925—.

Doctors' Building.

JOHN BARLOW YOUMANS, M. D.

Associate Professor of Medicine and Director of Postgraduate Instruction

A. B., University of Wisconsin, 1915; M. S., University of Wisconsin, 1916; M. D., Johns Hopkins University, 1919; Assistant in Medicine, Johns Hopkins Medical School, 1921-1922; Instructor, Internal Medicine, 1922, and Assistant Professor, University of Michigan Medical School, 1924-1927; Assistant Professor of Medicine, Vanderbilt University, 1927-1928; Associate Professor of Medicine, 1928—, and Director of Postgraduate Instruction, Vanderbilt University, 1930—.

Cane Creek Lane.

ASSISTANT PROFESSORS

EUGENE LINDSAY BISHOP, M. D.

Assistant Professor of Preventive Medicine and Public Health

M. D., Vanderbilt University, 1914; C. P. H., Johns Hopkins School of Hygiene and Public Health, 1923; Lecturer in Preventive Medicine, 1923-1924; Assistant Professor of Preventive Medicine and Public Health, Vanderbilt University, 1926—.

War Memorial Building.

ROBERT R. BROWN, M. D.

Assistant Professor of Clinical Orthopedic Surgery

M. D., Vanderbilt University, 1914; Assistant in Gynecology, 1915-1919; Assistant in Surgery, 1919-1925; Assistant in Clinical Orthopedic Surgery, 1925-1927; Instructor in Clinical Orthopedic Surgery, 1927-1933; Assistant Professor of Clinical Orthopedic Surgery, Vanderbilt University, 1933—.

Doctors' Building.

W. RAY BRYAN, PH. D.

Assistant Professor of Physiology

B. S., Carson-Newman College, 1928; Ph. D., Vanderbilt University, 1931; Assistant in Physiology, 1929-1931; Instructor in Physiology, 1932-1935; Assistant Professor of Physiology, Vanderbilt University, 1935—.

Ambassador Apartments.

MILTON T. BUSH, PH. D.

Research Associate in Pharmacology

Bachelor of Chemistry, 1925 and Ph. D., 1934, Cornell University; Assistant in Physical Chemistry, Cornell University, 1929-1935; Research Associate in Pharmacology, Vanderbilt University, 1935—.

THOMAS C. BUTLER, M. D.

Assistant Professor of Pharmacology

M. D., Vanderbilt University, 1934; Research Assistant in Pharmacology, 1934-1935; Instructor in Pharmacology, 1935-1936; Assistant Professor of Pharmacology, Vanderbilt University, 1936—.

Vanderbilt Hospital.

JOHN SMITH CAYCE, M. D.

Assistant Professor of Clinical Obstetrics

M. D., Vanderbilt University, 1914; Assistant in Obstetrics, 1919-1925; Assistant in Clinical Obstetrics, 1925-1928; Instructor in Clinical Obstetrics, 1928-1935; Assistant Professor of Clinical Obstetrics, Vanderbilt University, 1935—.

Medical Arts Building.

WILLIAM A. DEMONBREUN, M. D.

Assistant Professor of Pathology

A. B., 1922; M. S., 1923; and M. D., Vanderbilt University, 1927; Instructor in Pathology, 1929-1933; Assistant Professor of Pathology, Vanderbilt University, 1933—.

2617 Barton Ave.

HENRY L. DOUGLASS, M. D.

Assistant Professor of Clinical Urology

M. D., Vanderbilt University, 1914; Assistant to the Chair of Surgery, 1921-1925; Instructor in Clinical Urology, 1925-1935; Assistant Professor of Clinical Urology, Vanderbilt University, 1935—.

Doctors' Building.

LEONARD W. EDWARDS, M. D.

Assistant Professor of Clinical Surgery

M. D., Vanderbilt University, 1913; Assistant in Gynecology, 1915-1925; Instructor in Clinical Surgery, 1925-1931; Assistant Professor of Clinical Surgery, Vanderbilt University, 1931—.

Doctors' Building.

JOSEPH F. GALLAGHER, M. D.

Assistant Professor of Clinical Gynecology

M. D., University of Nashville, 1906; Demonstrator of Anatomy, University of Tennessee, 1907-1910; In charge of Surgical Out-Patient Department, Vanderbilt Hospital, 1911-1912; In charge of Out-Patient Department in Gynecology, 1912-1918; Assistant Professor of Gynecology, 1918-1925; Assistant Professor of Clinical Gynecology, Vanderbilt University, 1925—.

Bennie-Dillon Building.

McPHEETERS GLASGOW, M. D.

Assistant Professor of Clinical Gynecology

M. D., University of Pennsylvania, 1895; Demonstrator of Anatomy, 1897-1905; Demonstrator in Abdominal Surgery on Cadaver, 1904-1907; Professor of Therapeutics, 1910-1914; Assistant Professor of Gynecology, 1914-1925; Assistant Professor of Clinical Gynecology, Vanderbilt University, 1925—.

Old Golf Club Lane.

WILLIAM S. GRAY, D. D. S.

Assistant Professor of Clinical Dental Surgery

D. D. S., Vanderbilt University, 1925; Instructor in Clinical Dental Surgery, 1933-1935; Assistant Professor of Clinical Dental Surgery, 1935—.

Medical Arts Building.

CLAY MYERS GREER, M. S.

Research Associate in Pharmacology

A. B., 1926, and M. S., 1927, Vanderbilt University; Research Assistant in Pharmacology, 1934-1935; Research Associate in Pharmacology, Vanderbilt University, 1935—.

918 Douglas Ave.

FRED H. HALL, D. D. S.

Assistant Professor of Clinical Dental Surgery

D. D. S., Vanderbilt University, 1922; Assistant in Prosthetic Techniques and Clinics, 1922-1923; Instructor in Clinical Dental Surgery, 1933-1934; Assistant Professor of Clinical Dental Surgery, Vanderbilt University, 1935—.

Medical Arts Building.

*SEALE HARRIS, JR., M. D.

Assistant Professor of Medicine

M. D., Johns Hopkins Medical School, 1926; Assistant in Medicine, 1929-1930; Instructor in Medicine, 1930-1934; Assistant Professor of Medicine, Vanderbilt University, 1934—.

Castleman Drive.

**RUDOLPH H. KAMPMEIER, M. D.

Assistant Professor of Medicine

B. A., 1920 and M. D., 1923, Iowa State University; Research Assistant Otto Strague Memorial Institute, University of Chicago Medical School, 1924-1925; Senior Instructor in Internal Medicine, University of Michigan Medical School, 1925-1929; Instructor in Internal Medicine, University of Indiana Medical School, 1929-1930; Assistant Professor of Medicine, 1932-1935; Clinical Professor of Medicine, Louisiana State University, 1935-1936; Assistant Professor of Medicine, Vanderbilt University, 1936—.

Vanderbilt Hospital.

HOWARD KING, M. D.

Assistant Professor of Clinical Dermatology

M. D., University of Nashville, 1905; Assistant to the Chair of Dermatology, 1914-1925; Assistant in Clinical Dermatology, 1925-1926; Assistant Professor of Clinical Dermatology, Vanderbilt University, 1926—.

Doctors' Building.

FRANK H. LUTON, M. D.

Assistant Professor of Psychiatry

M. D., Vanderbilt University, 1927; Assistant in Psychiatry, 1928-1929, and Instructor in Psychiatry, 1929-1930, Johns Hopkins Medical School; Lecturer in Psychiatry, 1928-1930; Assistant Professor of Psychiatry, Vanderbilt University, 1930—.

3903 Brighton Road.

ANN STONE MINOT, PH. D.

Assistant Professor of Pediatric Research

A. B., Smith College, 1915; Ph. D., Radcliffe College, 1923; Research Assistant in Physiology and Pharmacology, Harvard Medical School, 1921-1925; Instructor in Physiology, Wellesley College, 1925-1926; Research Associate in Pharmacology, 1927-1930; Assistant Professor of Pediatric Research, Vanderbilt University, 1930—.

Wilson Blvd.

EUGENE ORR, M. D.

Assistant Professor of Clinical Otolaryngology

M. D., Vanderbilt University, 1911; Assistant to the Chair of Eye, Ear, Nose and Throat, 1915-1921; Assistant Professor of Eye, Ear, Nose and Throat, 1921-1925; Assistant Professor of Clinical Ophthalmology and Otolaryngology, 1925-1931; Assistant Professor of Clinical Otolaryngology, Vanderbilt University, 1931—.

Doctors' Building.

*—Resignation effective August 1, 1936.

**—Appointment effective August 1, 1936.

DAVID R. PICKENS, M. D.

Assistant Professor of Clinical Surgery

M. D., Vanderbilt University, 1907; Lecturer in Proctology, 1911-1926; Assistant Professor of Clinical Surgery, Vanderbilt University, 1926—

Doctors' Building.

COBB PILCHER, M. D.

Assistant Professor of Surgery

M. D., Vanderbilt University, 1927; Assistant in Surgery, 1929-1931; Instructor in Surgery 1931-1933; Assistant Professor of Surgery, Vanderbilt University, 1933—

Harding Court Apt.

JAMES O. PINKSTON, PH. D.

Research Associate in Pharmacology

B. S., Birmingham-Southern College, 1926; Ph. D., Harvard College, 1934; Instructor in Biology, 1926-1929; Assistant Professor of Biology, Birmingham-Southern College, 1929-1930; Teaching Fellow in Physiology, Harvard Medical School, 1930-1935; Visiting Professor of Physiology, University of Georgia Medical School, 1934; Research Associate in Pharmacology, Vanderbilt University, 1935—

Vanderbilt Medical School.

EUGENE M. REGEN, M. D.

Assistant Professor of Orthopedic Surgery

M. D., Vanderbilt University, 1928; Assistant in Orthopedic Surgery, 1930-1931; Instructor in Orthopedic Surgery, 1931-1933; Assistant Professor of Orthopedic Surgery, Vanderbilt University, 1933—

2503 Jones Ave.

SAMUEL S. RIVEN, M. D.

Assistant Professor of Clinical Medicine

M. D., C. M., McGill University, 1925; Instructor in Internal Medicine, University of Michigan, 1927-1930; Instructor in Clinical Medicine, 1930-1931; Assistant Professor of Clinical Medicine, Vanderbilt University, 1931—

Bennie-Dillon Building.

NATHANIEL SEHORN SHOFNER, M. D.

Assistant Professor of Anatomy and Clinical Surgery

M. D., Vanderbilt University, 1919; Demonstrator in Surgery, Western Reserve University, 1922-1924; Assistant in Clinical Surgery, 1925-1927; Instructor in Clinical Surgery and in Clinical Anatomy, 1927-1936; Assistant Professor of Anatomy and Clinical Surgery, Vanderbilt University, 1936—

Doctors' Building.

HARRISON H. SHOULDERS, M. D.

Assistant Professor of Clinical Surgery

M. D., University of Nashville, 1909; Assistant Professor of Physiology, 1919-1911; Assistant in Medicine, 1911-1913; Assistant Professor of Clinical Surgery, Vanderbilt University, 1930—

Doctors' Building.

ROGER W. STOUGHTON, PH. D.

Research Associate in Pharmacology

Ph. D., University of Illinois, 1932; Research Associate in Pharmacology, Vanderbilt University, 1933—

Vanderbilt Medical School.

EDNA H. TOMPKINS, M. D.

Assistant Professor of Anatomy

A. B., Radcliffe College, 1913; M. D., Johns Hopkins Medical School, 1924; Research Assistant in Anatomy, 1926-1927; Research Associate in Anatomy, 1927-1930; Assistant Professor of Anatomy, Vanderbilt University, 1930—.

Hermitage Hotel.

HARLIN TUCKER, M. D.

Assistant Professor of Clinical Gynecology

B. S., 1909, and M. D., 1912, Vanderbilt University; Assistant in Clinical Gynecology and Obstetrics, Vanderbilt University, 1915-1928; Instructor in Clinical Gynecology and Obstetrics, 1928-1929; Assistant Professor of Clinical Gynecology, Vanderbilt University, 1929—.

Medical Arts Bldg.

HERBERT S. WELLS, M. D.

Assistant Professor of Physiology

A. B., Stanford University, 1921; M. D., Johns Hopkins Medical School, 1925; National Research Fellow in Medicine, 1925-1927; Instructor in Pharmacology, 1927-1928; and Assistant Professor of Pharmacology, 1928-1931; Assistant Professor of Physiology, Vanderbilt University, 1931—.

Over Hill Drive.

W. CARTER WILLIAMS, M. D.

Assistant Professor of Preventive Medicine and Public Health

M. D., Vanderbilt University, 1925; Assistant in Preventive Medicine and Public Health, 1931-1934; Instructor in Preventive Medicine and Public Health, 1934-1935; Assistant Professor of Preventive Medicine and Public Health, Vanderbilt University, 1935—.

Franklin, Tennessee.

*J. M. WOLFE, Ph. D.

Assistant Professor of Anatomy

B. S., Carson-Newman College, 1928; Ph. D., Vanderbilt University, 1931; Research Assistant in Anatomy, 1929-1930; Instructor in Anatomy, 1930-1934; Assistant Professor of Anatomy, Vanderbilt University, 1934—.

2112 Highland Ave.

KATE SAVAGE ZERFOSS, M. D.

Assistant Professor of Clinical Ophthalmology

M. D., Tulane University of Louisiana, 1922; Assistant in Clinical Ophthalmology, 1930-1932; Instructor in Clinical Ophthalmology, 1932-1933; Assistant Professor of Clinical Ophthalmology, Vanderbilt University, 1933—.

165 8th Ave. North.

*—On leave of absence.

LECTURERS

WILLIAM GROCE HARRISON, M. D.

Lecturer in History of Medicine

B. Sc., Alabama Polytechnic Institute, 1890; M. D., University of Maryland, 1892; Lecturer in History of Medicine, Vanderbilt University, 1929—.

Birmingham, Alabama.

R. L. JONES, M. D.

Lecturer in Preventive Medicine and Public Health

M. D., Vanderbilt University, 1898; Associate Professor of Histology, 1910-1913; Assistant in Histology and Embryology, 1915; Instructor in Preventive Medicine and Hygiene, 1918-1920; Assistant in Clinical Microscopy, 1920-1923; Assistant in Medicine, 1923-1925; Lecturer in Preventive Medicine and Public Health, Vanderbilt University, 1926—.

Doctors' Building.

JOHN OVERTON, M. D.

Lecturer in Preventive Medicine and Public Health

M. D., Vanderbilt University, 1905; Assistant Demonstrator of Anatomy, 1909; Assistant to the Chair of Gynecology, 1911-1914; Assistant in Obstetrics, 1919-1921; Assistant in Gynecology, 1921-1925; Assistant in Clinical Gynecology, 1925-1927; Lecturer in Preventive Medicine and Public Health, Vanderbilt University, 1927—.

City Department of Health.

THOMAS W. SCHLATER, JR., LL. B.

Lecturer in Medical Jurisprudence

B. A., 1918, and LL. B., 1920; Vanderbilt University; Lecturer in Medical Jurisprudence, Vanderbilt University, 1925—.

Stahlman Building.

INSTRUCTORS

J. JEFFERSON ASHBY, M. D.

Instructor in Anatomy and in Clinical Orthopedic Surgery

M. D., Vanderbilt University, 1925; Assistant in Clinical Orthopedic Surgery, 1933-1935; Instructor in Clinical Orthopedic Surgery, 1935—; Instructor in Anatomy, Vanderbilt University, 1936—.

Doctors' Building.

WILLIAM C. BILBRO, JR., M. D.

Instructor in Anatomy and in Clinical Surgery

M. D., Vanderbilt University, 1918; Assistant to the Chair of Medicine, 1919-1923; Assistant to the Chair of Surgery, 1923-1925; Instructor in Clinical Surgery, Vanderbilt University, 1925—.

Doctors' Building.

JAMES B. BLACK, M. D.

Instructor in Preventive Medicine and Public Health

M. D., Tulane University, 1918; C. P. H., Johns Hopkins University, 1924; Dr. P. H., Johns Hopkins University, 1929; Director of Public Health Activities in Counties of Mississippi and Tennessee, 1924-1928; Instructor in Preventive Medicine and Public Health, Vanderbilt University, 1929—.

Murfreesboro, Tenn.

OSCAR BLOCH, M. D.

Instructor in Pathology

M. D., University of Pennsylvania, 1933; Instructor in Pathology, Vanderbilt University, 1936—.

Vanderbilt Hospital.

G. HEARN BRADLEY, M. D.

Instructor in Clinical Pediatrics

B. S., George Peabody College, 1922; M. D., Vanderbilt University, 1923; Assistant in Pediatrics, 1924-1925; Assistant in Clinical Pediatrics, Vanderbilt University, 1925—.

Doctors' Building.

OGDEN C. BRUTON, M. D.

Instructor in Pediatrics

M. D., Vanderbilt University, 1933; Assistant in Pediatrics, 1934-1935; Instructor in Pediatrics, Vanderbilt University, 1935—.

Vanderbilt Hospital.

HENRY M. CARNEY, M. D.

Instructor in Surgery

M. D., Vanderbilt University, 1933; Assistant in Surgery, 1934-1936; Instructor in Surgery, Vanderbilt University, 1936—.

Vanderbilt Hospital.

GEORGE K. CARPENTER, M. D.

Instructor in Clinical Orthopedic Surgery

M. D., Vanderbilt University 1919; Assistant in Orthopedics, 1924-1925; Assistant in Clinical Orthopedic Surgery, 1925-1927; and Instructor in Clinical Orthopedic Surgery, Vanderbilt University, 1927—.

Bennie-Dillon Building.

JAMES A. CRABTREE, M. D.

Instructor in Preventive Medicine and Public Health

M. D., University of Tennessee, 1925; Certificate in Public Health, Johns Hopkins University, 1929; Director of Division of Preventable Diseases, Tennessee Department of Health, 1930; Assistant in Preventive Medicine and Public Health, 1931-1933; Instructor in Preventive Medicine and Public Health, Vanderbilt University, 1933—.

War Memorial Building

MURRAY B. DAVIS, M. D.

Instructor in Clinical Surgery

M. D., Vanderbilt University, 1918; Assistant in Surgery, 1920-1925; Assistant in Clinical Surgery, 1925-1929; and Instructor in Clinical Surgery, Vanderbilt University, 1929—.

Doctors' Building.

RAPHAEL S. DUKE, M. D.

Instructor in Clinical Obstetrics and Gynecology

M. D., Vanderbilt University, 1924; Assistant in Clinical Gynecology and Obstetrics, 1928-1930; Instructor in Clinical Obstetrics and Gynecology, Vanderbilt University, 1930—.

Medical Arts Building.

W. SCOTT FARMER, M. D.

Instructor in Clinical Psychiatry

M. D., Vanderbilt University, 1890; Assistant in Clinical Psychiatry, 1926-1928; Instructor in Clinical Psychiatry, Vanderbilt University, 1928—.

Central State Hospital.

WILLIAM L. FLEMING, M. D.

Instructor in Medicine

M. D., Vanderbilt University, 1932; Assistant in Medicine, 1934-1935; Instructor in Medicine, Vanderbilt University, 1935—.

Vanderbilt Hospital.

MAE GALLAVAN, M. D.

Instructor in Bacteriology

M. D., Johns Hopkins University, 1933; Assistant in Pathology, Cleveland City Hospital Western Reserve University, 1935-1936; Instructor in Bacteriology, Vanderbilt University, 1936—.

Vanderbilt Hospital.

RAYDON S. GASS, M. D.

Instructor in Preventive Medicine and Public Health

M. D., Dalhousie University, 1925; Chief Physician on Tuberculosis Control, Division of Preventable Diseases, Tennessee Department of Health, 1930—; Assistant in Preventive Medicine and Public Health, 1931-1933; Instructor in Preventive Medicine and Public Health, Vanderbilt University, 1933—.

War Memorial Building.

WILLIAM H. GAUB, M. S.

Instructor in Preventive Medicine and Public Health

B. S., Rutgers University, 1921; M. S., Rutgers University, 1922; C. P. H., Massachusetts Institute of Technology, 1931; Instructor in Preventive Medicine and Public Health, Vanderbilt University, 1935—.

2111 Pontotoc Ave.

HORACE C. GAYDEN, M. D.

Instructor in Clinical Urology

M. D., Vanderbilt University, 1920; Assistant in Urology, 1920-1925; Assistant in Clinical Urology, 1925-1931; and Instructor in Clinical Urology, Vanderbilt, 1931—.

Bennie-Dillon Building.

DAVID W. HAILEY, M. D.

Instructor in Clinical Medicine

M. D., Vanderbilt University, 1924; Assistant in Clinical Medicine, 1926-1930; and Instructor in Clinical Medicine, Vanderbilt University, 1930—.

Bennie-Dillon Building.

CHARLES M. HAMILTON, M. D.

Instructor in Clinical Dermatology

M. D., Vanderbilt University, 1918; Assistant in Surgery, 1919-1921; Assistant in Dermatology and Electro-Therapeutics, 1921-1925; Assistant in Clinical Dermatology, 1925-1929; and Instructor in Clinical Dermatology, Vanderbilt University, 1929—.

Doctors' Building.

ROGERS NATHANIEL HERBERT, M. D.

Instructor in Clinical Surgery

M. D., Vanderbilt University, 1917; Assistant in Proctology, 1921-1925; Assistant in Clinical Surgery, 1925-1932; Instructor in Clinical Surgery, Vanderbilt University, 1932—.

Medical Arts Building.

JOSIAH B. HIBBITTS, JR., M. D.

Instructor in Anatomy

A. B., B. S., William Jewell College, 1916; M. D., Johns Hopkins Medical School, 1921; Assistant in Medicine, 1923-1925; Assistant in Clinical Medicine, 1925-1927; Instructor in Clinical Medicine, 1929-1932; and Instructor in Clinical Anatomy, Vanderbilt University, 1930—.

Medical Arts Building.

FOWLER HOLLABAUGH, M. D.

Instructor in Clinical Ophthalmology

M. D., Vanderbilt University, 1928; Assistant in Clinical Ophthalmology, 1933-1935; Instructor in Clinical Ophthalmology, Vanderbilt University, 1935—.

Doctors' Building.

LELAND M. JOHNSTON, M. D.

Instructor in Pathology

M. D., Tulane University, 1933; Assistant in Pathology, 1934-1935; Instructor in Pathology, Vanderbilt University, 1935—.

Vanderbilt Hospital.

JAMES A. KIRTLEY, JR., M. D.

Instructor in Clinical Surgery

M. D., Vanderbilt University, 1931; Assistant in Surgery, 1932-1935; Instructor in Surgery, 1935-1936; Instructor in Clinical Surgery Vanderbilt University, 1936—.

Doctors' Building.

RUTH M. KRAFT, PH. D.

Instructor in Biochemistry

Ph. D., Ohio State University, 1931; Instructor in Biochemistry, Vanderbilt University, 1936—.

Vanderbilt Medical School.

RALPH M. LARSEN, M. D.

Instructor in Surgery and in Anatomy

M. D., Vanderbilt University, 1931; Assistant in Surgery, 1932-1934; Instructor in Surgery, 1934; Instructor in Anatomy, Vanderbilt University, 1935—.

Vanderbilt University Hospital.

JOHN J. LENTZ, M. D.

Instructor in Preventive Medicine and Public Health

M. D., Vanderbilt University, 1906; Instructor in Preventive Medicine and Public Health, Vanderbilt University, 1930—.

Criminal Court Building.

MORTON F. MASON, PH. D.

Instructor in Biochemistry and Research Assistant in Medicine

B. S., Oregon State College, 1925; Ph. D., Duke University, 1934; Assistant, 1925-1926, and Research Assistant, Michigan State College, 1926-1931; Assistant in Biochemistry, Duke University, 1931-1934; Instructor in Biochemistry and Research Assistant in Medicine, Vanderbilt University, 1934—.

Vanderbilt University Hospital.

G. SIDNEY McCLELLAN, M. D.

Instructor in Obstetrics and Gynecology

M. D., University of Tennessee, 1930; Assistant in Obstetrics and Gynecology, 1933-1934; Instructor in Obstetrics and Gynecology, Vanderbilt University, 1935—.

Vanderbilt Hospital.

PAUL G. MORRISSEY, M. D.

Instructor in Clinical Medicine

M. D., University of Nashville, 1902; Assistant in Genito-Urinary Department, 1919-1925; Assistant in Clinical Urology, 1925-1926; Instructor in Clinical Medicine and in Clinical Urology, 1926-1930; Instructor in Clinical Medicine, Vanderbilt University, 1930—.

Bennie-Dillon Building.

ROY J. MORTON, M. S.

Instructor in Preventive Medicine and Public Health

A. B., Elon College, 1920; M. S., in C. E., University of North Carolina, 1923; M. S. in Municipal and Sanitary Eng., Harvard University, 1926; Instructor in Preventive Medicine and Public Health, Vanderbilt University, 1930—.

War Memorial Building.

JAMES C. OVERALL, M. D.

Instructor in Clinical Pediatrics

M. D., Vanderbilt University, 1927; Assistant in Clinical Pediatrics, 1929-1932; Instructor in Clinical Pediatrics, Vanderbilt University, 1932—.

Bennie-Dillon Building.

EDNA S. PENNINGTON, M. D.

Instructor in Clinical Medicine

M. D., University of Minnesota, 1923; Assistant in Clinical Medicine, 1932-1934; Instructor in Clinical Medicine, Vanderbilt University, 1934—.

Doctors' Building.

JEFFERSON C. PENNINGTON, M. D.

Instructor in Clinical Urology

M. D., Vanderbilt University, 1923; Assistant in Clinical Urology, 1927-1928; Instructor in Clinical Urology, Vanderbilt University, 1928—.

Bennie-Dillon Building.

ALEXANDER W. PIERCE, M. D.

Instructor in Pediatrics

M. D., Vanderbilt University, 1934; Assistant in Pediatrics, 1935-1936; Instructor in Pediatrics, Vanderbilt University, 1936—.

Vanderbilt Hospital.

R. H. RIDGON, M. D.

Instructor in Pathology

B. S., 1929 and M. D., 1931, Emory University; Resident Pathologist and Instructor in Pathology, Duke University Hospital, 1931-1935; Instructor in Pathology, Vanderbilt University, 1935—.

Vanderbilt Hospital.

ELKIN L. RIPPY, M. D.

Instructor in Clinical Surgery

M. D., Vanderbilt University, 1927; Assistant in Clinical Surgery, 1933-1935; Instructor in Clinical Surgery, Vanderbilt University, 1935—.

Bennie-Dillon Building.

EDWIN LEE ROBERTS, M. D.

Instructor in Clinical Otolaryngology

A. B., 1898, A. M., 1901, and M. D., 1905, University of Nashville; Assistant in Ophthalmology and Otolaryngology, University of Nashville, 1906-1909; Assistant in Ophthalmology and Otolaryngology, University of Tennessee and University of Nashville, 1909-1911; Assistant in Clinical Ophthalmology and Otolaryngology, 1926-1927; Instructor in Clinical Otolaryngology, Vanderbilt University, 1927—.

Jackson Building.

HOWARD C. ROBERTSON, M. D.

Instructor in Clinical Pediatrics

M. D., Vanderbilt University, 1924; Assistant in Clinical Pediatrics, 1927-1930; Instructor in Clinical Pediatrics, Vanderbilt University, 1930—.

Medical Arts Building.

JOHN M. SAUNDERS, M. D.

Instructor in Clinical Pediatrics

M. D., Vanderbilt University, 1930; Assistant in Pediatrics, 1931-1932; Instructor in Pediatrics, 1932-1934; Instructor in Clinical Pediatrics, Vanderbilt University, 1936—.

State Health Department

JOHN W. SIMPSON, M. D.

Instructor in Obstetrics and Gynecology

M. D., Vanderbilt University, 1932; Assistant in Obstetrics and Gynecology, 1934-1936; Instructor in Obstetrics and Gynecology, Vanderbilt University, 1936—.

Vanderbilt Hospital.

HOWARD C. STEWART, M. D.

Instructor in Preventive Medicine and Public Health

B. S., 1928, and M. D., 1920, University of Nebraska; Certificate of Public Health, Johns Hopkins University, 1925; Instructor in Preventive Medicine and Public Health, Vanderbilt University, 1928—.

War Memorial Building.

*JAMES W. WARD, PH. D.

Instructor in Anatomy

Ph. D., Vanderbilt University, 1935; Instructor in Anatomy, Vanderbilt University, 1936—.

PAUL WARNER, M. D.

Instructor in Clinical Obstetrics

M. D., Tulane University, 1927; Assistant in Clinical Obstetrics, 1929-1932; Instructor in Clinical Obstetrics, Vanderbilt University, 1932—.

Medical Arts Building.

ALBERT WEINSTEIN, M. D.

Instructor in Clinical Medicine

A. B., 1926, and M. D., Vanderbilt University, 1929; Assistant in Medicine, Johns Hopkins University, 1930-1933; Instructor in Medicine, 1933-1935; Instructor in Anatomy, 1935-1936; Instructor in Clinical Medicine, Vanderbilt University, 1935—.

Doctors' Building.

**JOHN E. WHITELEATHER, M. D.

Instructor in Radiology

M. D., University of Cincinnati, 1931; Instructor in X-Ray, University of Cincinnati, 1932-1935; Instructor in Radiology, Vanderbilt University, 1935-1936.

Vanderbilt Hospital.

*—On leave of absence 1936-1937.

**—Resigned July 1, 1935.

ASSISTANTS

JOSEPH W. ALFORD, JR., M. D.

Assistant in Clinical Medicine

M. D., Vanderbilt University, 1928; Assistant in Clinical Medicine, Vanderbilt University, 1930—.

Doctors' Building.

ELBRIDGE E. ANDERSON, M. D.

Assistant in Clinical Obstetrics

M. D., University of Tennessee, 1930; Assistant in Clinical Obstetrics, Vanderbilt University, 1934—.

Doctors' Building.

STEWART AUERBACH, M. D.

Assistant in Pathology

B. A., University of Alabama, 1931; M. D., University of Georgia, 1934; House Officer, University of Georgia Hospital, 1934-1935; Assistant in Pathology, Vanderbilt University, 1935—.

Vanderbilt Hospital.

ALLAN D. BASS, M. S.

Research Assistant in Pharmacology

B. A., Simpson College, 1931; M. S., Vanderbilt University, 1932; Research Associate in Pharmacology, Vanderbilt University, 1933—.

2410 Garland Ave.

LYNCH D. BENNETT, M. D.

Assistant in Clinical Surgery

M. D., Vanderbilt University, 1930; Assistant in Clinical Medicine, 1931-1932; Assistant in Clinical Surgery, Vanderbilt University, 1932—.

Doctors' Building.

J. FRAZIER BINNS, M. D.

Assistant in Clinical Pediatrics

M. D., Vanderbilt University, 1928; Assistant in Clinical Pediatrics, Vanderbilt University, 1932—.

Doctors' Building.

ANNA BOWIE, M. D.

Assistant in Clinical Gynecology

A. B., Vanderbilt University, 1913; M. D., University of Texas, 1920; Instructor in Pathology, University of Texas, 1918-1921; Supt. of Baptist Hospital, 1922-1923; Clinical Pathologist, Sealy Hospital, Galveston, 1923-1924; Adjunct in Medicine, University of Texas, 1924-1925; School Physician, Peabody College, 1925; Assistant in Clinical Gynecology, Vanderbilt University, 1928—.

1228 18th Avenue, South.

HISTORY

Vanderbilt University owes its foundation to the munificence of Cornelius Vanderbilt, of New York, who on March 27, 1873, made a donation of \$500,000 for the purpose of establishing a university. This donation was subsequently increased to \$1,000,000.

Further donations were made by Mr. W. H. Vanderbilt, son of the founder, and by Mr. Cornelius Vanderbilt, Mr. W. K. Vanderbilt and Mr. F. W. Vanderbilt, grandsons of the founder. The total gifts of the Vanderbilt family amount to over three million dollars.

Other gifts for the general endowment of the University have been made by many patrons and friends.

Vanderbilt University first granted the degree of Doctor of Medicine in 1875. In 1895 a complete reorganization of the Medical School was undertaken, and the University erected a building on the corner of Elm Street and Fifth Avenue, South, which was considered at that time an adequate and modern Medical School plant. The grounds and facilities of the medical school were greatly extended in 1911 by the purchase of the campus and buildings of the George Peabody College for Teachers, this purchase having been made possible through the generous contribution of Mr. W. K. Vanderbilt for this purpose.

In May, 1913, Mr. Andrew Carnegie contributed \$200,000 to the University to be used for the erection and equipment of a building for the laboratories of the medical school, and later gave \$800,000 as endowment of the school. The funds for the laboratory building were not used for building purposes at the time of the gift, but have been expended in erecting the part of the new medical school plant which is designated as the Carnegie Building.

In 1915 Mr. William Litterer, a capitalist of Nashville, donated to the University the former medical building of the University of Nashville. This building contained a large assembly hall, class rooms and laboratories of bacteriology and anatomy, and added much to the facilities of the school. This gift is commemorated in the new buildings by a tablet which designates the space devoted to bacteriology as The Litterer Laboratory.

In view of the past record of the school and in view of the favorable location of Nashville as an educational and medical center, Vanderbilt University was selected by the General Education Board of New York as offering an excellent opportunity for the development of medical education, especially in the Southern States. Accordingly in 1919 this Board appropriated the sum of \$4,000,000 to enable the University to effect a complete reorganization of its School of Medicine in accordance with the most exacting demands of modern medical education. The medical faculty entered into this project with a spirit of eager co-operation.

At this time the directors of the Galloway Memorial Hospital deeded to the University its unfinished hospital building located adjacent to the School of Medicine, which represented an expenditure of about \$250,000. Plans were then drawn for completing this hospital building and for making it part of a larger plant for the School of Medicine.

In June, 1921, after careful study, the program for the new medical plant was modified by the action of the Board of Trust, as it became evident that much was to be gained by uniting the School of Medicine with the rest of the University. It was decided, therefore, to construct an entirely new plant on the main campus of the University, and to abandon the developments on the South Campus. This proposition had been considered many times in past years, but had always been abandoned because of lack of means.

At this time, however, the advisability of the move was generally recognized, and it became possible by the active co-operation of the Carnegie Corporation and the General Education Board. By the action of this latter body the University authorities were permitted to use what was needed of the initial appropriation of \$4,000,000 for the erection of a medical school and hospital on the West Campus. The General Education Board and the Carnegie Corporation then united, each giving half of \$3,000,000 to provide additional endowment for the School of Medicine for its operation in the new plant.

The new plant, consisting of a hospital, laboratories for all departments, a school of nursing and power plant, was erected and equipped at a cost of approximately \$3,500,000. The new plant was put into operation in September, 1925. There remains of the original Carnegie gifts and the appropriations by the General Education Board and the Carnegie Corporation a sum of \$5,000,000 for endowment of the School of Medicine and of the Vanderbilt University Hospital. During the period of reorganization of the school, other needs not fully provided for became apparent which were met by further appropriations running over a period of years by the General Education Board and the Carnegie Corporation.

When the new plant was nearing completion an appropriation of \$100,000 was made to the University by the Rockefeller Foundation, to be used over a period of five years for the purpose of furthering the development of nursing education. This sum places the Vanderbilt University School of Nursing on a sound educational basis, comparable to that of the School of Medicine, with which it is closely co-ordinated.

In the spring of 1929, the General Education Board made a donation of \$2,000,000 for additional endowment

of the School of Medicine, thus replacing with permanent endowment a series of annual grants to the individual departments of the institution. This was increased on July 1, 1929, by further donations of \$1,500,000 for endowment of the School of Medicine, and of \$4,000,000 for endowment of the Vanderbilt University Hospital. The result of these additional appropriations is a permanent endowment brought about through the capitalization of a series of annual income grants. On July 1, 1935, the secretary of The General Education Board notified university authorities that an additional grant of \$2,500,000.00 had been made for the Vanderbilt University Hospital and Medical School to provide more adequate clinical facilities in certain phases of work.

THE LESLIE WARNER MEMORIAL FUND FOR THE STUDY AND TREATMENT OF CANCER

This fund was established in 1932 in memory of Leslie Warner, of Nashville, Tennessee. It consists of \$7,200, of which \$3,600 was contributed by the nieces and nephews of Mrs. Leslie Warner.

THE RACHAEL CARPENTER MEMORIAL FUND

This fund was established in 1933 by a gift of \$5,000 from Mrs. Mary Boyd Carpenter of Nashville. The income derived from this fund is to be used to promote education in the field of tuberculosis.

BUILDINGS

The building of the School of Medicine is located in the southeast corner of the University Campus. It is constructed in the collegiate Gothic Style, the structure being of concrete with brick and limestone walls. The total length of the building from north to south is 458 feet and from east to

west 337 feet. The floor area is 255,000 square feet. The building is in reality a series of buildings brought together so that they are all under one roof. The laboratories of the various departments of the Medical School are grouped about a court, which is open on the north side, toward the main part of the campus. The entrance to the Medical School is in the center of this court. The building on the east side of the court is designated as the Carnegie Building, and contains the laboratories of biochemistry, pharmacology and physiology, one floor being devoted to each of these subjects. The building on the west side of the court contains the laboratories of gross and microscopic anatomy, of pathology, and of bacteriology. In the building forming the south side of the court are the administrative offices of the school, large student laboratories, the Department of Preventive Medicine, the laboratory of surgical pathology and the surgical operating rooms of the hospital.

Around another open court, similar in size and proportions to the medical school court, but opening toward the south, are the hospital wards and an extensive out-patient department. The building on the west side of this court, containing the surgical portion of the hospital, is designated as the Galloway Building, and commemorates the donations made to the Galloway Memorial Hospital which have contributed toward the erection of the new medical plant.

The two wings connecting the buildings of the north and the south courts contain laboratories, lecture rooms and the library, and form the connecting links between the hospital and the medical school. The laboratories in these buildings are arranged especially for the use of the clinical departments of the school. Another building extending toward the east from the main structure and facing on the Hillsboro Road, built about a closed court, contains the

entrance to the hospital and its administrative offices, the living quarters of the resident staff, the kitchens, and on the top floor two wards for private patients. The hospital contains 210 beds.

The entire plant is so arranged that there is free communication between the various departments of the school and the hospital, and the library, with its spacious reading room, is in the center of the building. The medical school is arranged to accommodate two hundred students.

The building for the school of nursing is in conformity with the building of the medical school. It is directly north of the medical school building, facing Hillsboro Road.

The power house is located on the west side of the campus, facing Twenty-fourth Avenue. It serves the medical school and the hospital with steam and electricity, being connected with them by a large tunnel. It also supplies the other University buildings with steam. In addition to the boiler plant and electrical equipment, the power house contains the hospital laundry.

FACILITIES FOR INSTRUCTION

The buildings of the School of Medicine contain all the necessary departments, facilities and equipment for conducting a modern hospital and for the teaching of all the subjects contained in the medical curriculum. The laboratory and clinical facilities are closely co-ordinated, with the purpose that there shall be a ready flow of ideas between the laboratories of the medical sciences and the wards and out-patient service. Teaching laboratories, especially designed for their respective uses, are provided for gross and microscopic anatomy, biochemistry, physiology, bacteriology, pathology, pharmacology, preventive medicine, and for the clinical departments.

There are also a number of lecture rooms equipped with projection apparatus and other modern accessories for teaching, as well as an amphitheatre for clinical demonstrations which can accommodate practically the entire student body. Besides meeting the needs fully for the usual type of medical instruction, each department is provided with accommodations for a large number of advanced students and research workers.

The hospital consists of six units of from 26 to 40 beds. These units are designed for the following uses: One unit for male medical cases, one for female medical and pediatric cases, one for male surgical cases, one for female surgical and obstetrical cases, half a unit for private medical cases, half a unit for private surgical cases, and one divided unit for male and female colored patients. The entire hospital is operated by members of the teaching staff of the School of Medicine.

Adjoining each ward of the hospital there is a laboratory equipped for the more generally used diagnostic laboratory procedures in which students perform the various tests and examinations which the cases assigned to them may require. Each ward laboratory is provided with lockers for the microscopes and other instruments the students are required to own.

The out-patient service occupies the entire first floor of the southern portion of the building. It is especially designed for teaching and contains a series of examining, treatment and teaching rooms for general medicine and surgery, pediatrics, neurology, dermatology, dentistry, orthopedic surgery, ophthalmology, otolaryngology, obstetrics, gynecology, and urology. A waiting room adjoins each department, and several small clinical laboratories are placed in convenient locations. A demonstration room,

accommodating about one hundred students, is also provided in the out-patient service.

The department of radiology, equipped for fluoroscopic examinations, the making of radiograms, X-ray treatment, and for demonstration and study of radiograms, adjoins the out-patient service.

The surgical operating rooms are placed over the central portion of the medical school court, facing north. There are three large and one small operating rooms, and an obstetrical delivery room. A room for students is provided on the operating room floor.

Besides the clinical facilities offered by the wards and out-patient service of the University Hospital, the School of Medicine has been granted the privilege of recommending the staff of the Nashville General Hospital during eight months of the year and uses its two hundred twenty-five ward beds for clinical instruction. Teaching privileges have also been accorded to the school by St. Thomas Hospital, the Central State Hospital for the Insane, and the Davidson County Tuberculosis Hospital.

REQUIREMENTS FOR ADMISSION AND GRADUATION

REQUIREMENTS FOR ADMISSION AND GRADUATION

REQUIREMENTS FOR ADMISSION

The School of Medicine selects its students from those who fulfill one of the following conditions:

1. Graduates of collegiate institutions of recognized standing.

2. Seniors in absentia of collegiate institutions of recognized standing who will be granted the Bachelor's degree by their colleges after having completed successfully at least one year of the work of the School of Medicine. A properly accredited statement to this effect from the colleges shall accompany all applications for admission as seniors in absentia. A form is furnished for this purpose.

3. Students of foreign universities of recognized standing who have completed at least the equivalent of three years of collegiate education may be admitted to the School of Medicine at the discretion of the Committee on Admissions.

As admission to the School of Medicine is competitive, students will be selected on the basis of the *quality* of their college work and the general fitness of the applicant for the study of medicine.

Every candidate must present evidence of having satisfactorily completed during his collegiate course the following minimum requirements, in which a semester hour is the credit value of sixteen weeks' work consisting of one hour of lecture or recitation or at least two hours of laboratory work:

1. *Biology*.—One full course of eight semester hours, of which four must consist of laboratory work. The course may be general biology, zoology, or zoology and botany, but not more than half may be botany.

2. *Chemistry*.—A minimum total of twelve semester hours are required. Eight of these must be in general inorganic chemistry and must include four semester hours of laboratory work. There must also be presented four semester hours credit for organic chemistry covering both aliphatic and aromatic compounds and including two hours of laboratory work.

3. *Physics*.—Eight semester hours are required, of which at least two shall be laboratory work. The first year of college mathematics should be prerequisite to the course in physics. It is desirable that emphasis be placed on quantitative laboratory work.

4. *English and composition*.—Six semester hours.

5. *A modern foreign language*.—Six semester hours based on two units in high school or their equivalent in college.

The following recommendations are made in order to guide students intending to study medicine in the selection of their college courses.

1. *Biology*.—An advanced course of at least eight semester hours including at least two semester hours of laboratory work is highly desirable. This course should include vertebrate anatomy and embryology. If it does not, these subjects should be covered in other courses.

Credit will not be given for courses in physiology, histology, hygiene, sanitation, entomology, special bacteriology, neurology and similar subjects covered in the medical curriculum. Students are advised not to take such courses as part of their college work.

2. *Chemistry*.—The chemical preparation should include courses in the physical chemistry of solution and in quantitative technic. The latter may well be part of the

laboratory work in physical chemistry. Those students who have not had physical chemistry are advised to supplement their preparation by studying a modern text such as Chapin's "Second Year College Chemistry" (John Wiley and Sons New York.)

Credit toward the minimum requirements will not be given for work in physiological and nutritional chemistry covered in the medical curriculum. The student is advised to devote any extra time available for chemistry to more fundamental courses.

The ability to utilize ordinary mathematics, such as college algebra and logarithms, is essential in the study of modern chemistry, and a knowledge of elementary calculus is highly desirable.

3. *Physics*.—In addition to the required course in physics, special courses in electricity, light, etc. are desirable and will be considered on the same basis as extra courses in physical and quantitative chemistry.

4. *Psychology*.—A course of at least 4 semester hours, that deals especially with experimental or abnormal psychology, is recommended.

5. *Modern foreign languages*.—A reading knowledge of German and French is especially desirable for the study of medicine, and preference will be given to students who have taken college courses in these languages which should make available to them the scientific literature in these languages. A college course of six semester hours, based on two units in high school or their equivalent in college, is considered the minimum for this purpose. Credit is given for a reading knowledge of these languages without college credit, when it is demonstrated by examination.

The number of students admitted to the first year class of the School of Medicine is limited to fifty.

Women are admitted on equal terms with men.

Each applicant is required to furnish the names of three persons as references, two of them preferably from among his science teachers, when filing his application. A small unmounted photograph is also required at this time, and the scholastic aptitude test of the Association of American Medical Colleges should be taken in December of the year previous to application for admission to the School of Medicine.

SCHOLASTIC APTITUDE TEST

This test is given at the various Universities and Colleges usually in December. Every premedical student who will be a candidate for admission to any medical school should take this test. Practically every medical school proposes to use the test as one of the factors in selecting students for admission.

The scholastic record, together with the recommendations and the score made on this examination will be used by the Committee on Admissions in considering applications for admission to the school of medicine.

Applications for admission should be filed at as early a date as possible, and not later than May 15th of the year during which admission is sought. The applications are passed upon by the Committee on Admissions when received, and a final decision of acceptance or rejection may be reached at any time. Successful applicants are required to make a deposit of \$50.00 within a specified time after notification of their admission. This deposit is not returnable, but is credited toward the payment of the first tuition, and in the event the student does not matriculate, it is not

returnable. Failure to make this deposit within the specified time may cause the applicant to forfeit his place in the school.

Application forms may be obtained by applying to the Registrar, Vanderbilt University, School of Medicine.

REGISTRATION

All students are required to register and to pay the fees for the first half of the year on September 22 or 23, 1936, and for the second half year on or before January 31, 1937.

Any student who has failed to pay tuition and other fees ten days after they are due will be excluded from classes, except when under unusual circumstances an extension of time is allowed by the dean. This rule will be applied when such an extension of time has elapsed.

All students who fail to register on the days designated will be charged a fee of \$3.00 for late registration.

THE MEDICAL-SCIENTIFIC COURSE OF THE COLLEGE OF ARTS AND SCIENCE

In order to meet fully the requirements for entrance to Medicine, but at the same time to retain the cultural value of academic work and yet effect a saving of a year, the College offers the Medical-Scientific Course covering three years. Students who have satisfactorily completed the above course and whose applications for admission to the School of Medicine have been officially accepted, will, upon the completion of the first-year course in medicine, be given twelve hours' credit toward the Bachelor's degree.

Students desiring information in regard to this course should write to Dean F. C. Paschal of the College of Arts and Science, Vanderbilt University.

ADMISSION TO ADVANCED STANDING

Students may be admitted to advanced standing when vacancies occur under the following conditions. Applications for advanced standing should be filed according to the procedure described for admission to the first year class, acceptable applicants being required to make the same deposit of \$50.00. Applicants must furnish acceptable evidence of having completed the conditions of admission as prescribed on pages 69-71 and of having satisfactorily completed in an accredited medical school all the work required of students of the class they desire to enter. They must also present a certificate of honorable dismissal from the medical school or schools they have attended.

EXAMINATIONS AND PROMOTIONS

Successful completion of the various courses of the medical curriculum and the scholastic standing are determined by the character of the students' daily work and the results of examinations. Examinations may be written, oral or practical, and they may be held either at the completion of each course or at the end of the academic year. The quality of the work of each student is considered, usually at the end of each trimester, by a committee composed of the instructors responsible for his more important courses.

Students who fail in two major subjects at any time during their medical course may be required to withdraw from the school. Students who fail in two major subjects in the same department during a scholastic year or fail a re-examination in a major subject may be required to withdraw from the school. Students who have had no reported failures may be required to withdraw from the school if their work has been of general unsatisfactory quality. Students may be given credit for a subject by re-exami-

nation, but failures remain on their records, and may be counted as a cause for requesting withdrawal, provided another failure in a major course occurs. Major Courses are as follows:

First Year—Gross Anatomy, Histology, Neurology, Biochemistry, and Physiology.

Second Year—Bacteriology, Pathology, Pharmacology, Physical Diagnosis, Clinical Pathology, and Parasitic Diseases.

Third Year—Medicine, Surgery, Surgical Pathology, Obstetrics.

Fourth Year—Medicine, Surgery, Preventive Medicine and Public Health, Pediatrics, Gynecology.

No information regarding the relative scholastic standing of students is given out from the office of the dean. Students will be notified whenever the Committee on Promotion considers their work of poor quality, thus serving notice of the necessity for greater effort in order to carry the work of the school.

Any student who indicates by his work or his conduct that he is unfit for the practice of medicine may at the discretion of the Executive Faculty be requested to withdraw from the school at any time.

Students who at the beginning of an academic year have failed to complete all the work of the preceding years may not be allowed to carry all the prescribed courses. This rule applies especially to courses for which adequate preparation has not been gained by the completion of preceding courses.

Students may be required to repeat courses that they fail to pass on re-examination.

ELECTIVE WORK

Students are required to obtain credit for six units of elective or special work during their course. One unit is equivalent to two hours a week for one trimester. Elective units may be obtained as credit for elective courses or for a thesis prepared under the direction of and acceptable to the head of a department. Students entering elective courses are required to complete them in order to obtain elective units.

Elective units may also be obtained for special work done in or accepted by any department, when such work is considered by a committee of the faculty to be of superior quality.

Students are advised to consult the head of a department in which they may care to take special or elective work. This work need not be in a department in which required courses are being carried.

A notice in writing must be given to the Registrar at the time elective or special work in any department is begun. Students failing to give such notice may not receive credits for the elective work taken.

REQUIREMENTS FOR GRADUATION

The candidates for the degree of Doctor of Medicine must have attained the age of twenty-one years and be of good moral character. They must have spent at least four years of study as matriculated medical students, the last two of which must have been in this school. They must have satisfactorily completed all the required courses of the medical curriculum, have passed all prescribed examinations, and be free of indebtedness to the University. At the end of the fourth year every student who has fulfilled these requirements will be recommended for the degree of Doctor of Medicine.

GENERAL INFORMATION

GENERAL INFORMATION

FEES AND EXPENSES

Tuition Fee for the Year.....	\$ 300.00
This fee is payable in two equal installments, at The beginning of the session and on or before January 31.	
Contingent Fee.....	10.00
This fee covers breakage of apparatus and damage to buildings, and will be returned, less the charges, at the close of each academic year.	
Diploma Fee, charged to Fourth Year Students, payable on or before April 1.....	5.00
A fee for the support of the Student Union is charged to each student of the University.....	5.00

Fourth-year students are required to pay a rental charge of \$2.00 for academic hoods at commencement.

Students who register for the regular four year course in this medical school must pay the full tuition each year. There will be no exception to this requirement.

Graduate students who enroll in regular courses in the medical curriculum for credit toward an academic degree will, if they later become candidates for the Doctor of Medicine degree, be required to pay the full tuition as indicated above.

MICROSCOPES, BOOKS, APPARATUS, ETC.

Each student is required to possess a standard microscope, equipped with a substage light. In order to aid the first-year students in purchasing a microscope, the School of Medicine will advance three-quarters of the purchase price, to be repaid in three equal installments, payable in twelve, twenty-four and thirty-six months after the date of purchase.

The necessary or desirable books cost about \$50.00 a year. All purchases made at the Medical Book Store are on a cash basis.

All students are required to provide themselves with hemocytometers and hemoglobinometers before the beginning of the second trimester of the second year. They are required also to provide laboratory gowns, and while working in the hospital wards and out-patient service they shall wear clean white coats.

No rebate of tuition fees can be obtained for absence, except in cases of prolonged illness certified to by a physician.

Students who withdraw from the University for any reason or who are dismissed or requested to withdraw by the faculty after the beginning of a term, may not claim and are not entitled to any return or re-payment of tuition, fees, room rent or any other regular charges or assessments, and the University will not be liable for the return or refund of same.

The average annual expenses of a student in the School of Medicine, exclusive of clothes and incidentals, are estimated from the foregoing items as amounting to \$800.00 to \$1,000.00.

HONORS AND ORGANIZATIONS

Founder's Medal—This medal is awarded to the student in the graduating class of each School of the University who has attained the highest average standing in scholarship throughout the four years of study.

The Commonwealth Fund Scholarships—The Commonwealth Fund provides an annual grant as a scholarship fund for deserving medical students. The terms of the scholarship require that a student who receives such consideration shall agree to practice as much as three years in a rural area in Tennessee after graduation and after having served an internship of not less than two years. The scholarships may be renewed for each of the four years of medical study. Only bona fide residents and natives of Tennessee are eligible for these Scholarships. It is necessary that applications be filed prior to March 10, and blanks for this purpose may be obtained by addressing the Registrar of the School of Medicine.

The Beauchamp Scholarship—This scholarship, founded by Mrs. John A. Beauchamp in memory of her husband, who was for many years Superintendent of the Central State Hospital for the Insane, at Nashville, is awarded to the student showing greatest progress in the department of neurology and psychiatry and who is otherwise worthy and deserving.

The William Litterer Prize in Bacteriology—Established in 1931 by Dr. William Litterer of Nashville, this prize, amounting to \$100, is awarded annually to the fourth-year student doing the best research work in Bacteriology.

ALPHA OMEGA ALPHA

A chapter of this Medical Honor Society was established by charter in the School of Medicine in 1923. Not more than one-fifth of the students of the senior class are eligible for membership and only one-half of the number of eligible students may be elected to membership during the last half of their third year. This society has for its purpose the development of high standards of personal conduct, and scholarship, and the encouragement of the spirit of medical research. Students are elected into membership on the basis of their scholarship, character and originality.

The Society invites a scientist of prominence each year usually to deliver a lecture before the students, faculty, and local members of the medical profession. In 1936 this lecturer was Dr. David Barr, Professor of Medicine at Washington University, St. Louis.

ALUMNI MEMORIAL HALL

The Alumni Memorial Hall was erected during 1924 and 1925 through contributions by the alumni and their friends as a monument to the Vanderbilt men who fell in the World War. It is a handsome building in the collegiate Gothic Style designed chiefly as a center for the social life of the University. It contains a memorial hall, lounging, reading and recreation rooms, a small auditorium and offices for various student activities. The offices of the Alumni Association are in this building. There is also a club room for the members of the faculty.

THE STUDENT COUNCIL

The Student Council consists of representatives of the College of Arts and Science, and the Schools of Engineering, Law, Medicine and Religion. The Council represents the

whole body of students on the Campus, calls and conducts general meetings and elections, takes part in the management of student publications, receives communications from the Chancellor and faculties, and, in general, leads and directs student activities.

HONOR SYSTEM

All examination work in this University is conducted under the Honor System.

For the successful operation of the Honor System the cooperation of every student is essential. It is the duty of each student to show his appreciation of the trust reposed in him under this system, not alone by his own conduct, but by insisting on the absolute honesty of others in his class. For the purpose of investigating cases of violation of this system, there exists a Student Honor Committee.

STUDENT HEALTH SERVICE

All members of the first-year class and all students transferring from other institutions, are required to undergo a thorough physical examination within two weeks after the date of admission. Records of these examinations are kept, and students are advised concerning their physical condition and general health.

A member of the medical staff is appointed physician to the students. He has a regular daily office hour in the hospital, and should be consulted by any student who feels in any way indisposed. Students are referred by him to various members of the hospital staff whenever there are indications for such consultations, and all applications for medical care must be made first to the physician to students. There are no fees for this service. Students are admitted to the wards of the hospital when necessary at one-half

the regular rate, and they usually occupy beds in small separate wards. No reduction is made for students occupying rooms in the private pavilions.

The facilities of the Southern Graduate Y. M. C. A. School, which include swimming, handball, basketball, tennis, physical exercises, etc., are available to medical students. A fee of \$6.67 a trimester is charged by the Southern Graduate Y. M. C. A. School, \$4 to be paid by the student and the balance by the School of Medicine.

THE ABRAHAM FLEXNER LECTURESHIP

Announcement was made in the fall of 1927, that Mr. Bernard Flexner of New York City had given fifty thousand dollars to Vanderbilt University for the purpose of establishing the Abraham Flexner Lectureship in the School of Medicine. This Lectureship is awarded every two years to a scientist of outstanding attainments, who shall spend as much as two months in residence in association either with a department of a fundamental science or of a clinical branch. This Lectureship may also be given to one who has specialized in some science fundamental in the study of medicine.

The first series of the Abraham Flexner Lectures was given in the autumn of 1928, by Dr. Heinrich Poll, Director of the Institute of Anatomy of the University of Hamburg, Germany.

The second series of Lectures was given in the spring of 1931, by Sir William B. Hardy, Director of the Low Temperature Research Station at Cambridge University, England.

The third series was given in the spring of 1933 by Dr. Francis R. Fraser, Director of the Medical Unit and Professor of Medicine at the St. Bartholomew Hospital and Medical School, London, England.

The fourth series was given in the spring of 1935 by Dr. Erik Gunnar Nystrom, Professor of Surgery at the University of Uppsala, Sweden.

The fifth series will be given in the fall of 1936 by Dr. Thorvald Madsen, Director of the State Serum Institute of Denmark.

THE PHI BETA PI LECTURE

The Phi Beta Pi Lecture was established by the Nashville chapter of the Phi Beta Pi medical fraternity. This lecture is given under the auspices of the faculty of the School of Medicine. Each year usually a lecturer of prominence is selected, and the lecture is open to the medical students, faculty, and local members of the medical profession. In 1936 the lecturer was Dr. Richard E. Scammon, Professor of Anatomy in the University of Minnesota.

THE VANDERBILT MEDICAL SOCIETY

The medical society holds regular monthly meetings throughout the academic year, on the first Friday of each month at 8 p. m. in the medical school. At these meetings papers are presented by the teaching staff of the school, representing the research that is being carried on in the various departments. Patients presenting interesting and unusual conditions are also demonstrated. These meetings are open to students of the school and to the medical profession of the community.

The officers of the Vanderbilt Medical Society for 1936-1937 are Dr. John B. Youmans, President, and Dr. John C. Burch, Secretary.

LIBRARY

EILEEN R. CUNNINGHAM, *Librarian*
PEARLE C. HEDGES, *Senior Librarian*
DORINDA KNOPP, *Assistant Librarian*
FLORENCE HAYES, *Assistant*
DOROTHY CANTRELL, *Assistant*

The Library of the Medical School contains at present over 37,000 volumes and receives approximately 590 current medical periodicals. The back files of medical journals are being completed as rapidly as possible and new sets and current subscriptions are being constantly added. The Library is in charge of trained librarians who assist readers in the use of the material available. The library is open both to members of the staff and students of the school, and also to members of the Nashville Academy of Medicine and other members of the medical profession. The hours are from 8:15 A. M. to 6:00 P. M. and from 7:00 P. M. to 10:00 P. M. every week day, Saturdays from 8:15 A. M. to 4:30 P. M. and Sundays from 2:00 P. M. to 5:00 P. M. during the academic year.

The students of the first-year class are given, early in the first trimester, a brief period of instruction in the use of the medical library. The students are taught the arrangement of the library, and are made familiar with the use of the bibliographical material available, both English and foreign. The students are shown how to consult reference works and indices, and how to prepare bibliographies.

GENERAL PLAN OF INSTRUCTION

GENERAL PLAN OF INSTRUCTION AND DESCRIPTION OF COURSES

GENERAL PLAN OF INSTRUCTION

Each academic year with the exception of the first (semesters), is divided into three trimesters of eleven weeks each. Required lectures, classroom and laboratory work and practical work with patients occupy approximately seven hours a day on Mondays, Wednesdays and Fridays of each week. The afternoons of Tuesdays, Thursdays and Saturdays are generally free from required work throughout the course. The first two of these afternoons are intended for optional work in elective courses, in the library, or in supplementing the regular work in the laboratories or hospitals. As Tuesday and Thursday afternoons are usually free from required work for all classes, with the exception of the first year class, there is an opportunity for students of different classes to work together in elective courses. This feature of the curriculum tends, to some extent, to break down the sharp distinction between the classes. It also allows students to return to departments in which they have developed special interests.

Saturday afternoons are set aside for recreation, and work at these times is not encouraged.

Admission to the School of Medicine presupposes that every student has had an adequate preparation in chemistry, physics and biology, and the proper comprehension of practically every course in the medical curriculum is dependent upon knowledge gained in previously required courses. The proper succession of courses is therefore an important factor in determining the medical curriculum. Another important factor is, however, the correlation of courses. In several instances courses given simultaneously are planned to supplement and expand each other. Such correlation also allows students to study a subject from different points of view, and one course may often excite an interest in another.

Although there is no sharp demarcation in the curriculum between the laboratory and the clinical courses, the first year and the greater part of the second year are taken up in the study of the medical sciences,—anatomy, biological chemistry, physiology, bacteriology, pathology and pharmacology.

During the third trimester of the second year attention is strongly focused on technical training needed for the study of patients, which is begun in the hospital wards with the beginning of the third year, the students being assigned to the various wards of the hospitals in groups. The fourth year students are assigned to the different divisions of the out-patient service. By this arrangement the less mature students see the more out-spoken manifestations of disease under conditions which allow their study with greater facility, while the more mature students study the early manifestations of disease, when their recognition is more difficult. The senior students work also more independently under conditions more nearly like those obtaining in the practice of medicine. During the fourth year an opportunity is also given the students to acquire some of the simpler methods of specialists. No attempt is made however, to give them sufficient knowledge or experience, to encourage them to enter upon the practice of a specialty without serious graduate study.

Throughout the latter half of the course the students are taught as far as possible by practical work, and every effort is made to develop sound and well-trained practitioners of medicine.

Finally, during the fourth year courses in preventive medicine and public health are given, with the intent of familiarizing the student with the more important aspects of the prevention and control of disease. An attempt is

also made to interest the student in the relation of disease and injury to society, and to awaken in him a consciousness of his broader obligations to his community and to its social organization. Various aspects of prevention of disease are introduced throughout the entire medical curriculum to the end that the graduate of medicine is imbued with the "Preventive Idea." The out-patient department is utilized in giving the student a practical knowledge of the social aspects of disease, as well as the application of the principles of prevention in relation to medical practice.

COURSES OFFERED TO CANDIDATES FOR GRADUATE DEGREES

Candidates registered for Graduate Instruction in the University for the degree of Master of Science or of Doctor of Philosophy, may pursue work in the Medical Sciences given in the Medical School, either in regular courses or in special elective courses, provided such students are accepted by the heads of departments concerned. Graduate work in the Medical Sciences is regulated by the faculty of the Graduate School of the University. Candidates for graduate degrees should apply to the Dean of the Graduate School.

POSTGRADUATE INSTRUCTION IN MEDICINE

Postgraduate instruction in the School of Medicine has been placed under the direction of a faculty committee and a Director of Postgraduate Instruction, in cooperation with the heads of the departments. Courses may be offered at any time during the year for periods of varying length. Only a limited number of physicians can be admitted to any course.

A description of available courses may be found in the catalog on page 122. More detailed information may be

obtained concerning postgraduate instruction by writing the Director.

SUMMARY OF THE REQUIRED HOURS OF THE CURRICULUM

First Year		Second Year	
<i>Subjects</i>	<i>Hours</i>	<i>Subjects</i>	<i>Hours</i>
Anatomy.....	409	Bacteriology.....	176
Histology.....	104	Pathology.....	341

COURSES OF INSTRUCTION

Courses that are numbered 21 or above may be taken under conditions stated on pages 91 as meeting part of the requirements for a graduate degree.

All elective courses are listed in italics.

ANATOMY

ROBERT SYDNEY CUNNINGHAM, *Professor of Anatomy.*

KARL ERNEST MASON, *Associate Professor of Anatomy.*

SAM L. CLARK, *Associate Professor of Anatomy.*

EDNA H. TOMPKINS, *Assistant Professor of Anatomy.*

*J. M. WOLFE, *Assistant Professor of Anatomy.*

NATHANIEL SEHORN SHOFNER, *Assistant Professor of Anatomy.*

*JAMES W. WARD, *Instructor in Anatomy.*

JOSIAH B. HIBBITTS, JR., *Instructor in Anatomy.*

RALPH LARSEN, *Instructor in Anatomy.*

J. JEFFERSON ASHBY, *Instructor in Anatomy.*

RUCKER CLEVELAND, *Assistant in Anatomy.*

MARY E. GRAY, *Assistant in Anatomy.*

IRVING R. DRIBBEN, *Assistant in Anatomy.*

*-On leave of absence 1936-1937.

Courses of instruction are provided in histology, neurology and gross human anatomy, and opportunities are offered for advanced work and investigation in these sciences.

Physicians and properly qualified students, not candidates for the medical degree, may be admitted to any of the courses by special arrangements with the instructors and may undertake advanced work and original research.

21. GROSS ANATOMY. This course is devoted to a systematic dissection of the human body. The instruction is largely individual and the work of the student is made as independent as possible. Twenty-five hours a week from September 24 to January 30, first semester of the first year.

DR. MASON, DR. TOMPKINS, DR. HIBBITTS and MR. DRIBBEN.

22. **HISTOLOGY.** This course is devoted to giving the student a familiarity with the normal structure of the principal tissues and organs of the body. Fresh tissues are used wherever possible for the demonstration of normal cellular function, and students are taught the use of stains in analyzing the characteristics of particular cells. Seven hours a week from September 24 to January 30, first semester of the first year.

DR. CUNNINGHAM, DR. CLARK and MRS. GRAY.

23. **NEUROLOGY.** The histological aspect of the nervous system, including the structure of nerve cells, fibers and endings, the histology and pathways of the spinal cord, the structure and connections of cerebrospinal and autonomic nerves and ganglia, and the histology of the organs of special sense. Three hours a week from September 24 to January 30, first semester of the first year.

DR. CLARK, DR. CUNNINGHAM and MRS. GRAY.

24. **ADVANCED NEUROLOGY.** Using the work of the first year as a basis, an intensive study of the relations, structure and function of the various parts of the central nervous system is made with the aid of gross specimens and dissections, serial sections of brain stems and experimental demonstrations. The lectures are a guide to the laboratory work and present the type of evidence on which the present conceptions of the nervous system are based. Five hours a week from December 7 to March 13, second trimester of the second year.

DR. CLARK, DR. CUNNINGHAM and MRS. GRAY.

25. *Topographical-Applied Anatomy.* Practical consideration of the anatomical structures chiefly concerned in clinical surgery and medicine. Lectures and laboratory work six hours a week during the third trimester of the second year.

DR. SHOFNER, DR. LARSEN and DR. ASHBY.

26. *Advanced Anatomy.* A general review of gross anatomy, or special review and dissection of specific regions of the body in which the student may be particularly interested. Hours and credit by arrangement.

DR. MASON and DR. TOMPKINS.

27. *Practical Embryology*. Lectures and conferences dealing with the embryological aspects of the more common developmental anomalies of the human body.

DR. MASON and DR. CLARK.

28. *Research in Neurology*. Conferences and research upon special phases of the structure and function of the nervous system. This course is designed to meet the needs of students desiring special training in neurology. Hours and credit by arrangement.

DR. CLARK and DR. CUNNINGHAM.

29. *Brain Modelling*. The three-dimensional characteristics of the central nervous system are best studied and understood by the use of models. This course is designed to give opportunity to those students desiring to specialize in neurology and consists of the preparation of models of various kinds from dissected and sectioned brains, particularly of the mid-brain nuclei. Hours and credit by arrangement.

DR. CLARK and DR. CUNNINGHAM.

30. *Advanced Histology*. Research and conferences in the special histology of mammalian tissues. This course is designed to give students a wide latitude in training in the methods of investigation involving the structure of tissues. Hours and credit by arrangement.

DR. CUNNINGHAM and DR. TOMPKINS.

31. *Hematology*. Research and conferences in the application of the newer methods in the study of blood. Experimental work concerning the origin and function of the different blood cells and their interrelationships. Hours and credit by arrangement.

DR. CUNNINGHAM and DR. TOMPKINS.

32. *The Vascular System*. Advanced work and research in the structure and function of the blood vascular and lymph vascular systems. Hours and credit by arrangement.

DR. CUNNINGHAM and MRS. GRAY.

33. *Vitamins and Nutrition.* A comprehensive review of recent studies dealing with the nature and action of the vitamins, and the structural and functional manifestations of the deficiency diseases. Properly qualified students may also elect to obtain practical experience in the experimental production of dietary deficiencies, or to do investigative work in this field. Hours and credit by arrangement.

DR. MASON.

34. *Placentation.* The different types of placentation from the simple forms in the aedeuous animals through the various stages to that of man. Opportunity is offered for experimental work on the structure and function of the placenta. Hours and credit by arrangement.

DR. CUNNINGHAM and DR. CLEVELAND.

35. *Research.* Facilities for research will be provided to adequately prepared graduate students who show special aptitude or who are candidates for advanced degrees. Hours and credit by arrangement.

DR. CUNNINGHAM and STAFF.

BIOCHEMISTRY

CHARLES SUMMERS ROBINSON, *Professor of Biochemistry.*

J. M. JOHLIN, *Associate Professor of Biochemistry.*

MORTON F. MASON, *Instructor in Biochemistry.*

*RUTH M. KRAFT, *Instructor in Biochemistry.*

21. **BIOCHEMISTRY.** This is a lecture course which includes a review of physical and organic chemistry as applied to the study of body processes. The chemical aspects of digestion, metabolism, respiration etc. are discussed.

22. **LABORATORY WORK IN BIOCHEMISTRY.** This course is designed to accompany Course 21. Together they satisfy the requirements for the medical course.

18 hours a week for 16 weeks beginning February 1. Second semester of the first year.

DR. ROBINSON, DR. JOHLIN and STAFF.

23. *Advanced Work in Biochemical Methods.* Open to a limited number of properly qualified students. Admission to course, hours and credit by arrangement.

DR. ROBINSON and STAFF.

24. *Research Work in Biochemistry.* Admission to course, hours and credit by arrangement.

DR. ROBINSON AND STAFF.

25. *Advanced Work in Colloidal Chemistry.* Admission to course, hours and credit by arrangement.

DR. JOHLIN.

26. *Advanced Pathological Chemistry.* Lectures and Seminar on Recent Developments in Biochemistry in Relation to Medicine.

Open by arrangement to third and fourth-year students as elective work.

DR. ROBINSON AND DR. MASON.

27. *Seminar in Biochemical Literature.* Admission and hours by arrangement.

THE STAFF.

*-Effective March 15, 1936.

PHYSIOLOGY

WALTER EUGENE GARREY, *Professor of Physiology.*

CHARLES EDWIN KING, *Associate Professor of Physiology.*

HERBERT S. WELLS, *Assistant Professor of Physiology.*

W. RAY BRYAN, *Assistant Professor of Physiology.*

21. *PHYSIOLOGY.* This course for first-year medical students is designed to cover the essentials of medical physiology. Lectures, conferences and laboratory work are given during the second semester.

DR. GARREY, DR. KING, DR. WELLS AND DR. BRYAN.

22. *Physiological Technique and Preparations.* A course designed for advanced students. Time and credits by arrangement.

DR. GARREY, DR. KING, DR. WELLS AND DR. BRYAN.

23. *Special Physiology.* Optional work for medical students. Conferences and experiments dealing with phases of special physiology. Tuesday and Thursday afternoons of the first trimester.

To be selected from the following topics:

(a) The physiology of reflexes, emphasizing those commonly studied clinically—DR. KING.

(b) The mechanism and control of respiration—DR. KING.

(c) Circulatory relations to water balance—DR. WELLS.

24. *Research.* Facilities for research may be provided to adequately prepared students. Hours and credit by arrangement.

DR. GARREY, DR. KING, DR. WELLS AND DR. BRYAN.

PATHOLOGY

- ERNEST W. GOODPASTURE, *Professor of Pathology.*
ROY C. AVERY, *Associate Professor of Bacteriology.*
WILLIAM A. DEMONBREUN, *Assistant Professor of Pathology.*
R. H. RIGDON, *Instructor in Pathology.*
LELAND M. JOHNSTON, *Instructor in Pathology.*
OSCAR BLOCH, *Instructor in Pathology.*
STEWART AUERBACH, *Assistant in Pathology.*
MAE GALLAVAN, *Instructor in Bacteriology.*
G. JOHN BUDDINGH, *Assistant in Pathology.*
-

21. GENERAL AND SPECIAL PATHOLOGY. Various phases of general and special pathology are presented by lectures, demonstrations, discussions and laboratory work. Both the gross and the microscopic lesions characteristic of various diseases are studied and correlated. The class attends and may assist with post mortem examinations performed during the year.

Seventeen hours of lectures and laboratory work a week during the first trimester and fourteen hours of lectures and laboratory work a week during the second trimester of the second year.

DR. GOODPASTURE, DR. DEMONBREUN, DR. RIGDON AND STAFF.

22. CLINICAL PATHOLOGICAL CONFERENCES. This is a weekly meeting of the third and fourth year students, and members of the hospital staff at which the clinical aspects and diagnosis of fatal cases are discussed, followed by an exposition and an explanation of the pathological changes that are discovered at autopsy.

One hour a week throughout the third and fourth years. Dr. Goodpasture in conjunction with members of the clinical staff.

23. *Research.* Opportunities for research are offered to properly qualified students. Hours and credit by arrangement.

24. BACTERIOLOGY. The course in Bacteriology consists of lectures and laboratory work. Emphasis is placed upon the aspects of bacteriology and immunology that are directly pertinent to an understanding of the etiology and pathogenesis of infectious disease and its practical bacteriological diagnosis. The fundamental principles of bacteriology are illustrated by applying them to the practical study of infectious material from patients in the University

Hospital. During the course, the student receives considerable first-hand training in the more important bacteriological methods used in the examination of clinical material.

Through the cooperation of the Department of Preventive Medicine, lectures on the public health aspects of representative infectious diseases are given as a part of the course, with a view of correlating the bacteriological studies of the specific organisms with the epidemiological principles involved in the control of the communicable diseases.

Sixteen hours of lectures and laboratory work a week during the first trimester of the second year.

DR. AVERY AND STAFF.

25. *IMMUNOLOGY.* The course in Immunology consists of lectures and demonstrations. The fundamental principles of immunology are represented upon a theoretical basis. The importance of these principles is illustrated by a consideration of their practical application to the problems of resistance to infection and seriological methods of diagnosis. Emphasis is placed upon the specific biological products used in the prevention and treatment of certain infectious diseases.

Two hours a week during the second trimester of the fourth year.

DR. AVERY AND STAFF.

26. *Advanced Medical Bacteriology and Immunology.* This course includes advanced training in special methods used in the study of problems of immediate relation to infectious diseases. Hours and credit by arrangement.

DR. AVERY AND STAFF.

27. *Microbiology.* This course consists of a study of various phases of the mechanism of bacterial metabolism; bacterial enzymes and influence of different environmental factors upon bacterial growth. Hours and credit by arrangement.

DR. AVERY.

28. *Advanced Work on the General Principles of Immunology.* This course differs from Course 23 in that it consists of studies related to the fundamental principles of immunology, rather than to the immediate application of immunology to medicine. Hours and credit by arrangement.

DR. AVERY AND STAFF.

PHARMACOLOGY

PAUL DUDLEY LAMSON, *Professor of Pharmacology.*

BENJAMIN HOWARD ROBBINS, *Associate Professor of Pharmacology.*

THOMAS C. BUTLER, *Assistant Professor of Pharmacology.*

ROGER W. STOUGHTON, *Research Associate in Pharmacology.*

CLAY MYERS GREER, *Research Associate in Pharmacology.*

MILTON T. BUSH, *Research Associate in Pharmacology.*

JAMES O. PINKSTON, *Research Associate in Pharmacology.*

ALLAN D. BASS, *Research Assistant in Pharmacology.*

21. *Pharmacology.* The course in Pharmacology consists of a series of lectures in which the pharmacological action of the different drugs is taken up, and where possible, demonstrated by experiments. Laboratory exercises are given in which the student has an opportunity to become familiar with pharmacological technic and to see for himself the action of the more important substances.

Four lectures and seven hours of laboratory work a week during the second trimester of the second year.

DR. LAMSON AND STAFF.

22. *Research.* Opportunities for research are offered to those properly qualified who wish to carry out investigations and have sufficient time for such work. Hours and credit by arrangement.

DR. LAMSON AND STAFF.

PREVENTIVE MEDICINE AND PUBLIC HEALTH

- WALLER S. LEATHERS, *Professor of Preventive Medicine and Public Health.*
- HENRY E. MELENEY, *Associate Professor of Preventive Medicine and Public Health.*
- ALVIN E. KELLER, *Associate Professor of Preventive Medicine and Public Health.*
- EUGENE LINDSAY BISHOP, *Assistant Professor of Preventive Medicine and Public Health.*
- W. CARTER WILLIAMS, *Assistant Professor of Preventive Medicine and Public Health.*
- JOHN OVERTON, *Lecturer in Preventive Medicine and Public Health.*
- R. L. JONES, *Lecturer in Preventive Medicine and Public Health.*
- WILLIAM W. FRYE, *Research Assistant in Preventive Medicine and Public Health.*
- JAMES B. BLACK, *Instructor in Preventive Medicine and Public Health.*
- JAMES A. CRABTREE, *Instructor in Preventive Medicine and Public Health.*
- RAYDON S. GASS, *Instructor in Preventive Medicine and Public Health.*
- WILLIAM H. GAUB, *Instructor in Preventive Medicine and Public Health.*
- JOHN J. LENTZ, *Instructor in Preventive Medicine and Public Health.*
- ROY J. MORTON, *Instructor in Preventive Medicine and Public Health.*
- HOWARD C. STEWART, *Instructor in Preventive Medicine and Public Health.*
- ROBERT KNOX GALLOWAY, *Assistant in Preventive Medicine and Public Health.*
- R. H. HUTCHESON, *Assistant in Preventive Medicine and Public Health.*
- CRIT PHARRIS, *Assistant in Preventive Medicine and Public Health.*
- HOWARD D. SCHMIDT, *Assistant in Preventive Medicine and Public Health.*
-

1. PREVENTIVE MEDICINE AND PUBLIC HEALTH. A course of lectures intended to provide the student with the preventive point of view in the practice of medicine and also to acquaint him with the organized forces working for the public health. The following subjects are among those considered: Etiology, modes of transmission and methods of prevention and control of communicable diseases; the epidemiology of some of the more important infectious diseases; maternal and infant hygiene; the venereal disease problem; the

more common occupational diseases; the deficiency diseases; school hygiene; water supplies and sewage disposal. As much time as possible is given to the study of the present status of public health organization, federal, state and local. Stress is placed upon the principles involved in public health administrative practice, especially in relation to the practitioner of medicine.

Two hours a week during the first and second trimesters of the fourth year.

DR. LEATHERS AND STAFF.

2. **FIELD DEMONSTRATIONS.** Visits for observation and instruction are made to health activities carried on in Nashville and in the immediate vicinity. This includes state, county and city health departments; infant hygiene clinics; tuberculosis clinics; and places of public utility, such as dairies, public water supply, sewage disposal plants, and industrial establishments. After each group of four demonstrations one period is devoted to a seminar in which certain students discuss important phases of the activities to which visits have been made. Certain other students make environmental studies of cases referred to the social service department and report these at a seminar. A laboratory problem in the epidemiology of an infectious disease occupies two of these periods.

Three hours (one afternoon) a week during the first and second trimesters of the fourth year.

DR. LEATHERS AND STAFF.

3. **PARASITIC DISEASES.** A course of lectures, demonstrations and laboratory exercises in which the animal parasites of man, their vectors and the diseases which they produce are studied. Emphasis is laid more upon the biological activities of parasites than upon their morphology. Clinical cases and case histories are used wherever possible, and methods of treatment and prevention are stressed.

Six hours a week during the third trimester of the second year.

DR. MELENEY AND DR. FRYE.

4. *Elective Work.* The participation of a few selected fourth-year students will be welcomed in investigative work carried on by members of the Department. Hours and credits to be arranged.

5. **POSTGRADUATE INSTRUCTION IN PUBLIC HEALTH.** (See page 122.)

MEDICINE

- HUGH JACKSON MORGAN, *Professor of Medicine.*
WILLIAM H. WITT, *Professor of Clinical Medicine.*
JOHN BARLOW YOUMANS, *Associate Professor of Medicine.*
TINSLEY RANDOLPH HARRISON, *Associate Professor of Medicine.*
OVAL N. BRYAN, *Associate Professor of Clinical Medicine.*
WILLIAM R. CATE, *Associate Professor of Clinical Medicine.*
ROBERT C. DERIVAUX, *Associate Professor of Clinical Medicine.*
HOLLIS E. JOHNSON, *Associate Professor of Clinical Medicine.*
JOHN OWSLEY MANIER, *Associate Professor of Clinical Medicine.*
JACK WITHERSPOON, *Associate Professor of Clinical Medicine.*
*SEALE HARRIS, JR., *Assistant Professor of Medicine.*
**RUDOLPH H. KAMPMEIER, *Assistance Professor of Medicine.*
SAMUEL S. RIVEN, *Assistant Professor of Clinical Medicine.*
WILLIAM L. FLEMING, *Instructor in Medicine.*
DAVID W. HAILEY, *Instructor in Clinical Medicine.*
PAUL G. MORRISSEY, *Instructor in Clinical Medicine.*
EDNA S. PENNINGTON, *Instructor in Clinical Medicine.*
ALBERT WEINSTEIN, *Instructor in Clinical Medicine.*
JOSEPH W. ALFORD, JR., *Assistant in Clinical Medicine.*
RAYMOND R. CROWE, *Assistant in Clinical Medicine.*
THOMAS F. FRIST, *Assistant in Clinical Medicine.*
THOMAS GILBERT, *Assistant in Clinical Medicine.*
WILDER WALTEN HUBBARD, *Assistant in Clinical Medicine.*
EDGAR JONES, *Assistant in Clinical Medicine.*
JAMES S. READ, *Assistant in Clinical Medicine.*
AMIE T. SIKES, *Assistant in Clinical Medicine.*
CLARENCE S. THOMAS, *Assistant in Clinical Medicine.*
STUART R. COMBS, *Assistant in Medicine.*
MARVIN B. CORLETTE, *Assistant in Medicine.*
ARTHUR J. MERRILL, *Assistant in Medicine.*
JOHN R. WILLIAMS, JR., *Assistant in Medicine.*
ROBERT H. WILLIAMS, *Assistant in Medicine.*
MORTON F. MASON, *Research Assistant in Medicine.*

*Resignation effective August 1, 1936.

**Appointment effective August 1, 1936.

1. **CLINICAL PATHOLOGY.** A series of lectures and laboratory exercises in the microscopic and chemical methods used in the diagnosis of disease. Students are trained in the technique of examining urine, blood, sputum, gastric contents, feces, and "puncture fluids." The interpretation of laboratory data is discussed.

Seven hours a week during the second trimester of the second year.

DR. JONES AND DR. MASON.

2. **CLINICAL LECTURES AND DEMONSTRATIONS.** Topics are taken up in correlation with other courses being pursued simultaneously. Certain phases of clinical physiology are illustrated.

One hour a week during the third trimester of the second year.

DR. HARRISON.

3. **PHYSICAL DIAGNOSIS.** Lectures, demonstrations and practical exercises designed to introduce the students to the methods used in examining patients and to the interpretation of the data obtained by inspection, palpation, percussion and auscultation. The students are divided into groups for the purpose of examining each other and selected patients.

Ten hours of lectures, demonstrations and practical work a week during the third trimester of the second year.

DR. YOUMANS, DR. WITT, DR. KAMPMEIER AND STAFF.

4. **WARD WORK.** One-third of the third-year class is assigned to the medical wards during one trimester. Bedside instruction is given each morning from 8:30 to 9:30 o'clock by various members of the staff. At other times students study the cases assigned to them and compile some of the data required for an understanding of the cases, under the direction of members of the staff. A weekly seminar is also held. Small groups of students are also assigned for ward work in the Nashville General Hospital.

Approximately 20 hours a week during one trimester.

DR. MORGAN, DR. YOUMANS, DR. HARRISON, DR. CATE, DR. LUTON AND STAFF.

5. **CLINICAL LECTURES AND DEMONSTRATIONS.** A series of clinical lectures and demonstrations for the purpose of bringing before the third-year class patients illustrating usual and important diseases.

One hour a week during the first and second trimesters of the third year.

DR. WITT.

6. THERAPEUTICS. Lectures and demonstrations, illustrating the general care of patients, dietetic treatment, and such therapeutic procedures as venesection, pleural aspiration and lumbar puncture. The therapeutic use of various drugs and methods of prescription and administration are discussed and illustrated by the use of patients.

Two hours a week during the third trimester of the fourth year.

DR. HARRISON.

7-A. MEDICAL OUT-PATIENT SERVICE. One-sixth of the students of the fourth-year class are assigned during half of one trimester to the medical out-patient service. Cases are assigned to the students who record the histories, conduct the physical examinations and perform the simpler laboratory tests. Their work is reviewed by members of the staff, who act as consultants, see that all patients receive any needed consultations from other departments, and direct the management of the cases.

Twelve hours a week during half of one trimester of the fourth year.

DR. YOUMANS, DR. KAMPMEIER, DR. RIVEN AND STAFF.

7-B. MEDICAL OUT-PATIENT SERVICE. Members of the fourth-year class are assigned for half of one trimester to special clinics in the medical out-patient service where they observe methods of dealing with metabolic and allergic and thoracic diseases.

Six hours a week during half of one trimester of the fourth year.

DR. DERIVAUX, DR. JOHNSON, DR. PENNINGTON, DR. THOMAS, AND DR. WEINSTEIN.

8. CLINICAL LECTURES AND DEMONSTRATIONS. Patients are selected from the medical wards and out-patient service. The patients are presented by the students to whom they have been assigned and the diagnosis and treatment of the cases are discussed with members of the third and fourth-year classes.

One or two hours a week throughout the third and fourth years.

DR. MORGAN AND STAFF.

9. *Special Elective Courses.* A limited number of students of the third and fourth years may be accepted for special elective work each trimester in the various laboratories of the department and in the medical wards and out-patient service of the hospital.

Hours and credit by arrangement.

DR. MORGAN AND STAFF.

10. *Elective Course in Syphilis.* The diagnosis and treatment of this disease is provided for in a special clinic in the department of medicine. Each case is carefully studied prior to the institution of treatment. The students take an important part in the diagnostic and therapeutic activities of the clinic.

Limited to 8 students in each trimester. Six hours per week throughout the fourth year.

DR. KAMPMEIER AND DR. MORRISSEY.

Neurology and Psychiatry

ALBERT W. HARRIS, *Professor of Clinical Neurology and Psychiatry.*

FRANK H. LUTON, *Assistant Professor of Psychiatry.*

W. SCOTT FARMER, *Instructor in Clinical Psychiatry.*

HENRY B. BRACKIN, *Assistant in Clinical Psychiatry.*

J. PILMOOR GILBERT, *Assistant in Clinical Psychiatry.*

LUTHER S. LOVE, *Assistant in Clinical Psychiatry.*

1. **PSYCHOBIOLOGY.** The course is given to furnish a basis for the study of psychiatry. Each student makes an exhaustive study of his own personality and learns by his own reactions to recognize more clearly the meanings of behavior as seen in his patients. An attempt is made to inject a sense of the need for keeping in mind the influence of personality and experience on the patient's behavior, and for thinking in terms of total reactions rather than in part.

An opportunity is given for the student to become familiar with the methods and descriptive terms used in the study of behavior.

Eleven lectures during the first trimester of the first year.

DR. LUTON.

2. **PSYCHIATRY.** The subject is presented in a series of lectures in which the commoner psychoses, the psycho-neuroses, and the personality reactions associated with physical disease are discussed. Clinical material is used for illustration of the many psychiatric problems that occur in a general hospital ward. The principles of prevention as applied to mental disease are emphasized.

One hour a week during the second and third trimesters of the third year. DR. LUTON.

3. NEUROLOGY. Lectures and demonstrations are held in which the commoner neurological conditions are discussed from the point of view of diagnosis and treatment.

Two hours a week during the third trimester of the third year. DR. HARRIS.

4. CLINICAL NEUROLOGY AND PSYCHIATRY. One-sixth of the fourth year class is assigned to the neurological out-patient service during part of each trimester. Here they are taught the special methods of examination required in the study of neurological and psychiatric patients, and are given instruction in the diagnosis and management of neurological and psychiatric conditions.

Four hours a week during half of one trimester of the fourth year. DR. HARRIS, DR. LUTON AND STAFF.

5. CLINICAL DEMONSTRATIONS IN PSYCHIATRY. Clinical lectures and demonstrations are held at the Tennessee Central State Hospital for the Insane. Patients showing the types of psychiatric diseases which are more frequently met with by the practitioner of medicine are demonstrated and discussed.

Three hours a week during the third trimester of the fourth year. DR. LUTON, DR. FARMER AND STAFF.

Dermatology

HOWARD KING, *Assistant Professor of Clinical Dermatology.*

CHARLES M. HAMILTON, *Instructor in Clinical Dermatology.*

LEON M. LANIER, *Assistant in Clinical Dermatology.*

1. DERMATOLOGY. A course of eleven lectures and demonstrations covering the various groups of skin diseases and some of the dermatological manifestations of general disease.

One hour a week during the first trimester of the fourth year. DR. KING.

2. CLINICAL DERMATOLOGY. One-sixth of the fourth-year class is assigned to the dermatological clinic during part of one trimester, where they have practice in the diagnosis and treatment of the diseases of the skin under the supervision of the staff.

Two hours a week during half of one trimester of the fourth year. DR. HAMILTON.

PEDIATRICS

- HORTON R. CASPARIS, *Professor of Pediatrics.*
OWEN HARRIS WILSON, *Professor of Clinical Pediatrics.*
SAMUEL M. BLOOMSTEIN, *Associate Professor of Clinical Pediatrics.*
KATHARINE DODD, *Associate Professor of Pediatrics.*
JOHN M. LEE, *Associate Professor of Clinical Pediatrics.*
ANN STONE MINOT, *Assistant Professor of Pediatric Research.*
OGDEN C. BRUTON, *Instructor in Pediatrics.*
ALEXANDER W. PIERCE, *Instructor in Pediatrics.*
G. HEARN BRADLEY, *Instructor in Clinical Pediatrics.*
JAMES C. OVERALL, *Instructor in Clinical Pediatrics.*
HOWARD C. ROBERTSON, *Instructor in Clinical Pediatrics.*
JOHN M. SAUNDERS, *Instructor in Clinical Pediatrics.*
J. FRAZIER BINNS, *Assistant in Clinical Pediatrics.*
T. FORT BRIDGES, *Assistant in Clinical Pediatrics.*
PHILIP C. ELLIOTT, *Assistant in Clinical Pediatrics.*
SOL L. LOWENSTEIN, *Assistant in Clinical Pediatrics.*
WILLIAM O. VAUGHAN, *Assistant in Clinical Pediatrics.*
BARNETT P. BRIGGS, *Assistant in Pediatrics.*
HELEN PRESLEY JOHNSTON, *Assistant in Pediatrics.*
-

1. LECTURES AND DEMONSTRATIONS. The new-born child, growth, development and nutrition of infants and children, and the prevention of the abnormal are discussed. Especial attention is given to the normal child as a basis for the study of the abnormal, or diseases of children.

One hour a week during the first trimester of the third year.

DR. CASPARIS.

2. WARD WORK. One-sixth of the third class is assigned to the pediatric wards during one-half of each trimester. Bedside instruction is given and patients are studied, emphasis being laid on the structure and function of the normal child. Variations from the normal and their prevention are considered.

Nine hours a week during half of one trimester of the third year.

DR. DODD AND STAFF.

3. CLINICAL LECTURES AND DEMONSTRATIONS. The more important phases of pediatrics, including the acute infectious diseases of childhood, are demonstrated and discussed. Patients from the wards and from the out-patient service are presented.

Two hours a week during the first and second trimesters and one hour a week during the third trimester of the fourth year.

DR. CASPARIS, DR. WILSON, AND STAFF.

4. PEDIATRIC OUT-PATIENT SERVICE. One-sixth of the fourth year class is assigned to the pediatric out-patient service during one-half of a trimester. Patients are assigned to students, who record histories, make physical examinations and carry out diagnostic procedures. Diagnosis and treatment are considered with members of the staff.

Eight hours a week during half of one trimester of the fourth year.

DR. DODD, DR. BRUTON AND STAFF.

5. *Elective work* in the laboratories, wards and dispensary of the department is offered to small groups of students of the fourth year during each trimester. Hours and credit by arrangement.

DR. CASPARIS, DR. DODD AND DR. MINOT.

SURGERY

- BARNEY BROOKS, *Professor of Surgery.*
DUNCAN EVE, *Professor of Clinical Surgery.*
RICHARD A. BARR, *Professor of Clinical Surgery.*
WORCESTER ALLEN BRYAN, *Professor of Clinical Surgery.*
WILLIAM DAVID HAGGARD, *Professor of Clinical Surgery.*
ALFRED BLALOCK, *Associate Professor of Surgery.*
BEVERLY DOUGLAS, *Associate Professor of Surgery.*
GEORGE SUMMERS JOHNSON, *Associate Professor of Surgery.*
DUNCAN EVE, JR., *Associate Professor of Clinical Surgery.*
THOMAS D. MCKINNEY, *Associate Professor of Clinical Surgery.*
COBB PILCHER, *Assistant Professor of Surgery.*
LEONARD W. EDWARDS, *Assistant Professor of Clinical Surgery.*
DAVID R. PICKENS, *Assistant Professor of Clinical Surgery.*
NATHANIEL SEHORN SHOFNER, *Assistant Professor of Clinical Surgery.*
HARRISON H. SHOULDERS, *Assistant Professor of Clinical Surgery.*
HENRY M. CARNEY, JR., *Instructor in Surgery.*
RALPH M. LARSEN, *Instructor in Surgery.*
WILLIAM C. BILBRO, JR., *Instructor in Clinical Surgery.*
MURRAY B. DAVIS, *Instructor in Clinical Surgery.*
ROGERS NATHANIEL HERBERT, *Instructor in Clinical Surgery.*
JAMES A. KIRTLEY, JR., *Instructor in Clinical Surgery.*
ELKIN L. RIPPY, *Instructor in Clinical Surgery.*
ROLLIN A. DANIEL, *Assistant in Surgery.*
EDWARD F. PARKER, JR., *Assistant in Surgery.*
BERNARD M. WEINSTEIN, *Assistant in Surgery.*
THOMAS E. WYATT, *Assistant in Surgery.*
LYNCH D. BENNETT, *Assistant in Clinical Surgery.*
WILLIAM J. CORE, *Assistant in Clinical Surgery.*
HENRY M. COX, *Assistant in Clinical Surgery.*
CARL R. CRUTCHFIELD, *Assistant in Clinical Surgery.*
ROBERT WILLIAM GRIZZARD, *Assistant in Clinical Surgery.*
CARL S. McMURRAY, *Assistant in Clinical Surgery.*
TRAVIS H. MARTIN, *Assistant in Clinical Surgery.*
CLEO M. MILLER, *Assistant in Clinical Surgery.*
OSCAR G. NELSON, *Assistant in Clinical Surgery.*
SAMUEL T. ROSS, *Assistant in Clinical Surgery.*
DAUGH W. SMITH, *Assistant in Clinical Surgery.*
W. ALBERT SULLIVAN, *Assistant in Clinical Surgery.*
CHARLES C. TRABUE, *Assistant in Clinical Surgery.*
THOMAS BOWMAN ZERFOSS, *Assistant in Clinical Surgery.*

1. **INTRODUCTION TO SURGERY.** This is a laboratory demonstration and lecture course in which the fundamental processes of physiology and pathology as applied to surgery are studied. The object of the course is the study of such subjects as wound healing, infection and antiseptics. The students are given practical tests of the various methods of sterilizing the hands, instruments and dressings. The course also includes instruction in the methods of application of the usual surgical dressings. The object of the course is to prepare the students for beginning their clinical training.

Five hours a week during the third trimester of the second year.

DR. BRYAN AND STAFF.

2. **PHYSICAL DIAGNOSIS IN SURGERY.** The object of this course is to instruct the students in those methods of physical diagnosis particularly referable to surgical diseases. The student is instructed in the methods of physical examination of the abdomen, spine, joints and deformities.

One hour a week during the third trimester of the second year.

DR. BLALOCK.

3. **SURGICAL PATHOLOGY.** The object of this course is to teach surgery from the viewpoint of anatomical and physiological pathology. Specimens from the operating room, case histories, laboratory experiments and occasional patients from the wards are used to demonstrate the most frequent surgical diseases.

Three hours a week throughout the third year.

DR. JOHNSON.

4. **SURGICAL CLINICS.** The students of the third and fourth year classes are expected to attend two surgical clinics each week. The subjects considered at these clinics vary with the clinical material available. In so far as it is possible an attempt is made to have the various instructors present well-studied cases illustrating surgical conditions with which the instructor is particularly familiar.

Two hours a week throughout the third and fourth years.

DR. BARR, DR. BROOKS, AND DR. HAGGARD.

5. **SURGICAL WARDS.** For one trimester one-third of the third year students serve as assistants in the surgical wards of the Vanderbilt University Hospital from 8:30 to 11:30 a. m. daily. The students, under the direction of the staff, make the records of the histories, physical examinations and the usual laboratory tests. Ward rounds are made daily by various members of the surgical staff at which times the ward cases are discussed with the students. The students may be present in the operating rooms at such times as their required work permits. When possible the student is permitted to assist in a surgical operation which is performed upon a patient assigned to him in the ward. During one trimester the students are given the opportunity of studying the surgical patients in the Nashville General Hospital.

Approximately twenty hours a week during one trimester of the third year.

DR. BROOKS AND STAFF.

6. **SURGICAL OUT-PATIENT SERVICE.** For one trimester the students of the fourth year class serve daily as assistants in the out-clinics of general surgery, orthopedic surgery and genito-urinary surgery. They make the record of the histories, physical examination and laboratory tests of the patients attending the out-clinic and assist in the dressings and in minor operations. Various members of the surgical staff are in constant attendance to instruct the students in their work and to discuss with them the diagnosis and treatment of the out-clinic patients. In the out-clinics of orthopedic surgery and urology the students receive instruction in the particular methods of diagnosis and treatment used by these special branches of surgery.

Twelve hours a week throughout one trimester of the fourth year. in groups.

DR. JOHNSON AND STAFF.

7. **FRACTURES.** During the fourth year one hour each week is given to the instruction of the entire fourth year class in the diagnosis and treatment of fractures. Both hospital and dispensary patients are used in this course and some additional instruction may be given at other hospitals.

One hour a week during the first trimester of the fourth year.

DR. EVE.

Elective Courses in Surgery for Fourth Year Students. Throughout the year an opportunity is given for the students of the fourth year class to devote themselves to the study of certain special problems in surgery. The various courses offered are entirely optional and the number of students admitted to any particular course is determined by the instructor responsible for it. The nature of the courses offered is determined by the desire of certain instructors to give special training in the particular subjects in which they are interested. In some of the courses the students are permitted to select the character of the work to be done. During the school year 1935-1936 the following courses are available:

8. *Operative Surgery.* In this course the students are instructed in the technique of certain more or less standard operative procedures. The operative procedures are carried out upon the living animal under careful aseptic technique and the students are taught such technical procedure as intestinal sutures, cholecystectomy and nephrectomy.

Two hours a week during the first trimester.

DR. DAVIS.

9. *Thoracic Surgery.* In this course a group of students is given the opportunity to study some of the fundamental principles involved in surgical diseases of the chest. Such subjects as asphyxia and the mechanism of breathing will be studied experimentally.

Two hours a week during the first trimester.

DR. BLALOCK.

10. *Blood Transfusion.* In this course instruction is given in the technique of blood grouping and the various methods of blood transfusion. The effects of hemorrhage, dehydration and increased intracranial pressure are also studied experimentally.

Two hours a week during the second trimester.

DR. DOUGLAS.

11. *Surgery of the Vascular System.* Particular attention is given to the study of factors influencing blood flow.

Two hours a week during the second trimester.

DR. JOHNSON.

12. *Surgical Pathology.* In this course opportunity is given to a limited number of students to study the material which has been accumulated in the surgical pathological laboratory. The material to be studied is selected by the student under the direction of the instructor.

Two hours a week during the third trimester.

DR. JOHNSON.

13. *Diseases of the Rectum.* A limited number of students may receive instruction in the diagnosis and treatment of diseases of the rectum in the out-patient service, one afternoon each week.

Two hours a week throughout the year.

DR. PICKENS.

14. *Research.* Throughout the year an opportunity is given for students to do investigative work in such subjects as are suitable for the limited time available.

Three hours a week throughout the year.

DR. BROOKS.

Ophthalmology

ROBERT SULLIVAN, *Professor of Clinical Ophthalmology.*

HENRY CARROLL SMITH, *Associate Professor of Clinical Ophthalmology.*

KATE SAVAGE ZERFOSS, *Assistant Professor of Clinical Ophthalmology.*

FOWLER HOLLABAUGH, *Instructor in Clinical Ophthalmology.*

HALE CULLOM, *Assistant in Clinical Ophthalmology.*

1. OPTHALMOLOGY. A course of lectures is given on the more common diseases and injuries of the eye and the various causes of disturbed vision. The physiology and anatomy of the eye are briefly reviewed.

One hour a week during the second and third trimesters of the fourth year.

DR. SMITH AND STAFF

Otolaryngology

MARVIN McTYEIRE CULLOM, *Professor of Clinical Otolaryngology.*
 WILLIAM GILLIAM KENNON, *Professor of Clinical Otolaryngology.*
 GUY M. MANESS, *Associate Professor of Otolaryngology.*
 EUGENE ORR, *Assistant Professor of Clinical Otolaryngology.*
 EDWIN LEE ROBERTS, *Instructor in Clinical Otolaryngology.*
 JERE W. CALDWELL, *Assistant in Clinical Otolaryngology.*
 ANDREW N. HOLLABAUGH, *Assistant in Clinical Otolaryngology.*
 WILLIAM WESLEY WILKERSON, JR., *Assistant in Clinical Otolaryngology.*

2. OTOLARYNGOLOGY. A course of lectures is given in which the diseases of the ear, nose and throat are briefly discussed and the methods of treatment are described.

One hour a week during the first trimester of the fourth year.

DR. KENNON.

3. CLINICAL OPHTHALMOLOGY AND OTOLARYNGOLOGY. Groups consisting of one-sixth of the fourth year class are assigned to clinical work in the out-patient service, where they have an opportunity to examine patients, to practice the simpler forms of treatment, to witness and to assist in operations, and to participate in the post-operative care of patients.

Eight hours a week during one-half of one trimester.

DR. CULLOM, DR. KENNON, DR. ORR, DR. SMITH AND STAFF.

Urology

PERRY BROMBERG, *Professor of Clinical Urology.*
 EDWARD HAMILTON BARKSDALE, *Associate Professor of Urology.*
 HENRY L. DOUGLASS, *Assistant Professor of Clinical Urology.*
 HORACE C. GAYDEN, *Instructor in Clinical Urology.*
 JEFFERSON C. PENNINGTON, *Instructor in Clinical Urology.*
 L. RUBEN GAYDEN, *Assistant in Clinical Urology.*
 MAX K. MOULDER, *Assistant in Clinical Urology.*

1. A course of lectures and recitations is given covering the more important aspects of urology.

One hour a week during the second and third trimesters of the fourth year.

DR. BROMBERG AND STAFF.

2. **CLINICAL INSTRUCTION.** Students receive clinical instruction in the wards and in the out-patient service, the fourth year class being divided into small groups for this purpose.

Approximately 10 hours a week during half of one trimester.

DR. BROMBERG AND STAFF.

Orthopedic Surgery

R. WALLACE BILLINGTON, *Professor of Clinical Orthopedic Surgery.*

EUGENE M. REGEN, *Assistant Professor of Orthopedic Surgery.*

ROBERT R. BROWN, *Assistant Professor of Clinical Orthopedic Surgery.*

GEORGE K. CARPENTER, *Instructor in Clinical Orthopedic Surgery.*

J. JEFFERSON ASHBY, *Instructor in Clinical Orthopedic Surgery.*

1. **ORTHOPEdic SURGERY.** A course of lectures and recitations in which the more important parts of orthopedic surgery are discussed is given.

One hour a week during the first trimester of the fourth year.

DR. BILLINGTON AND STAFF.

2. Students receive instruction in the wards and out-patient service in small groups during the third and fourth years.

Approximately 10 hours a week for one-half of one trimester.

DR. BILLINGTON AND STAFF.

Dental Surgery

R. BOYD BOGLE, *Professor Emeritus of Clinical Dental Surgery.*

OREN A. OLIVER, *Professor of Clinical Dental Surgery.*

WALTER M. MORGAN, *Associate Professor of Clinical Dental Surgery.*

WALTER O. FAUGHT, *Associate Professor of Clinical Dental Surgery.*

WILLIAM S. GRAY, *Assistant Professor of Clinical Dental Surgery.*

FRED H. HALL, *Assistant Professor of Clinical Dental Surgery.*

Although there are no formal lectures or recitations in dental surgery, the students of the fourth year class have abundant opportunity to become familiar with diseases of the teeth and gums arising in the various clinics of the Out-Patient Service. The division of dental surgery conducts a clinic two days each week, to which patients suffering from diseases of the teeth or gums are referred for examination and treatment. Approximately 1,500 patients annually are referred to this clinic for examination and treatment. The staff of the division of dental surgery also assist in the treatment of fractures and tumors of the jaw.

RADIOLOGY

C. C. McCLURE, *Associate Professor of Radiology.*

*JOHN E. WHITELEATHER, *Instructor in Radiology.*

1. RADIOLOGY. A series of lectures will be given on physics, methods, and clinical uses of radium and roentgen rays in the diagnosis and treatment of diseases, and on their underlying principles.

One hour a week during the third trimester of the fourth year.

DR. McCLURE AND STAFF.

2. *Roentgen Diagnosis.* One-sixth of the fourth year class will receive instruction in X-ray interpretation of routine ward and dispensary cases over a period of six weeks.

This course offers more advanced work in roentgen diagnosis, and should be preceded by Roentgenology 3.

Two hours daily, three trimesters, fourth year students.

DR. McCLURE AND STAFF.

3. *Roentgenology 3.* This course is offered to afford students instruction in the roentgenological interpretation of; first normal roentgenograms, and second, more common diseases, and is given as a series of demonstrations and discussions of selected cases.

Two hours each week throughout the year for third year students, one-third of class each trimester; and to a limited number of fourth year students.

DR. McCLURE AND STAFF.

4. *X-ray Technique.* Instruction in the principles underlying roentgenotechnique will be given as a series of discussions and demonstrations.

Two hours each week, limited to ten fourth year students, time to be arranged.

DR. McCLURE AND STAFF.

*-Resigned July 1, 1936.

OBSTETRICS AND GYNECOLOGY

- LUCIUS EDWARD BURCH, *Professor of Clinical Obstetrics and Gynecology.*
SAM C. COWAN, *Professor of Clinical Obstetrics.*
JOHN C. BURCH, *Associate Professor of Clinical Obstetrics and Gynecology*
W. BUSH ANDERSON, *Associate Professor of Clinical Obstetrics.*
WILLIAM C. DIXON, *Associate Professor of Clinical Gynecology.*
MILTON S. LEWIS, *Associate Professor of Clinical Obstetrics.*
HOLLAND M. TIGERT, *Associate Professor of Clinical Gynecology.*
JOSEPH F. GALLAGHER, *Assistant Professor of Clinical Gynecology.*
MCPHEETERS GLASGOW, *Assistant Professor of Clinical Gynecology.*
HARLIN TUCKER, *Assistant Professor of Clinical Gynecology.*
JOHN SMITH CAYCE, *Assistant Professor of Clinical Obstetrics.*
RAPHAEL S. DUKE, *Instructor in Clinical Obstetrics and Gynecology.*
G. SYDNEY MCCLELLAN, *Instructor in Obstetrics and Gynecology.*
PAUL WARNER, *Instructor in Clinical Obstetrics.*
JOHN W. SIMPSON, *Instructor in Obstetrics and Gynecology.*
ELBRIDGE E. ANDERSON, *Assistant in Clinical Obstetrics.*
ANNA BOWIE, *Assistant in Clinical Gynecology.*
ROGER B. BURRUS, *Assistant in Clinical Gynecology.*
DEWEY FOSTER, *Assistant in Clinical Gynecology.*
HAMILTON GAYDEN, *Assistant in Clinical Obstetrics and Gynecology.*
THEODORE MORFORD, *Assistant in Clinical Gynecology.*
MILLER ROBINSON, *Assistant in Clinical Obstetrics.*
DOUGLAS SEWARD, *Assistant in Clinical Gynecology.*
ARTHUR SUTHERLAND, *Assistant in Clinical Obstetrics and Gynecology.*
WILLARD O. TIRRILL, JR., *Assistant in Clinical Obstetrics and Gynecology.*
ALLEN E. VAN NESS, *Assistant in Clinical Obstetrics.*
CLAUD D. JOHNSON, *Assistant in Obstetrics and Gynecology.*
EUGENE T. ELLISON, *Assistant in Obstetrics and Gynecology.*
R. F. VOGT, *Assistant in Obstetrics and Gynecology.*
DORIS H. PHELPS, *Research Assistant in Obstetrics and Gynecology.*

1. OBSTETRICS. A series of lectures and discussions covering the fields of normal labor, the pathology of labor, and the pathology of pregnancy, is given throughout the third year. Normal labor and abnormal labor are demonstrated to the class with moving pictures and slides. In the general plan of instruction, the lectures on obstetrics are completed during the third year.

Three hours a week during the first and second trimesters and two hours a week during the third trimester of the third year.

DR. COWAN, DR. CAYCE AND DR. McCLELLAN.

2. CLINICAL OBSTETRICS. During one-half of a trimester a small group of students study the patients in the obstetrical wards and out-patient service. They work in the prenatal clinic, practice pelvimetry and are given exercises with the obstetrical manikin.

After February 1st of the third year, students are assigned in pairs to attend patients during confinement in their homes under supervision of instructors. All students are required to have assisted in at least twelve deliveries, either in the hospital or in the out-patient service.

Approximately fifteen hours a week during half of one trimester of the third year, exclusive of outside deliveries.

DR. COWAN AND DR. McCLELLAN.

3. GYNECOLOGY. A course of lectures, recitations and assigned reading, for fourth-year students, in which the more important topics of the subject are covered.

One hour a week during the second and third trimesters of the fourth year.

DR. BURCH AND STAFF.

4. CLINICAL GYNECOLOGY. Fourth-year students are assigned to gynecology in small groups. They attend daily the out-patient service, study the patients in the wards, and attend or assist at the operations. Special emphasis is placed on the study of gynecological diagnosis, and an attempt is made to train the student in that part of the subject with which the practitioner of medicine should be familiar.

Twelve hours a week during one-half of a trimester of the fourth year.

DR. J. BURCH, DR. GLASGOW, DR. TUCKER, DR. DUKE, DR. BOWIE, DR. SEWARD, DR. FOSTER, DR. BURRUS, DR. McCLELLAN, DR. GAYDEN, DR. SUTHERLAND, DR. TERRILL AND DR. SIMPSON.

5. GYNECOLOGY AND OBSTETRICS. Clinical lectures and demonstrations are given each week to the fourth-year class, at which time cases of special value from the wards or out-patient service are presented.

One hour a week throughout the fourth year.

DR. BURCH AND STAFF.

6. *Elective Course.* Gynecological pathology one trimester, six or more students. One lecture or demonstration a week. Two hours of laboratory work consisting of histology, physiology, gross and histopathology of the pelvic organs.

DR. JOHN C. BURCH.

7. *Elective Course.* Opportunity for the investigation of special gynecological and obstetrical problems is offered to two students each trimester.

Hours and credit by arrangement.

DR. JOHN C. BURCH.

MEDICAL JURISPRUDENCE

THOMAS W. SCHLATER, JR., *Lecturer in Medical Jurisprudence.*

MEDICAL JURISPRUDENCE. This course includes medical evidence and testimony; expert testimony; rights of medical witnesses; dying declarations; medicolegal post mortem examinations; criminal acts determined by medical knowledge; malpractice and the legal relation of physicians to patients and the public. Some consideration is also given to the state law in its relation to public health operations.

One hour a week during the third trimester of the fourth year.

MR. SCHLATER.

HISTORY OF MEDICINE

WILLIAM GROCE HARRISON, M. D., *Lecturer in the History of Medicine.*

A series of illustrated lectures is given, each lecture covering some phase of medical history. Epoch making events in modern medicine will be discussed, so that the course will have practical as well as a cultural interest for the student.

One hour a week during the first trimester of the fourth year.

DR. HARRISON.

POSTGRADUATE COURSES

JOHN B. YOUMANS, *Director.*

The following postgraduate courses will be offered during the year 1936-1937. Admission will be restricted to graduates in Medicine. Only a limited number can be admitted to the intensive courses beginning July 13. Persons desiring to register for these special courses should notify the Registrar of the Medical School as soon as possible, in order that reservations may be made for them. Those who wish further information regarding these courses should address the Registrar of the Medical School.

PREVENTIVE MEDICINE AND PUBLIC HEALTH

A course twelve weeks in duration is given for physicians who wish to prepare themselves for positions as health officers. The work of the first seven weeks consists of lectures, laboratory demonstrations, visits to out-patient departments which deal with conditions of public health importance, conferences on the administration of local health organizations and their relationship to other health agencies, exercises in epidemiology, vital statistics, graphic methods, etc. The work of the last five weeks consists of practical field work under a trained health officer in a county having a full-time health organization. Inquiries should be addressed to the Registrar of the Medical School.

THE COMMONWEALTH FUND FELLOWSHIPS

The Commonwealth Fund provides fellowships for general practitioners of medicine who wish to devote a four months' period to postgraduate instruction in the Vanderbilt School of Medicine. Two courses are given annually. Each course is limited to ten physicians. Applications are made direct to the Commonwealth Fund. These fellowships are given to physicians in Tennessee only.

INTENSIVE COURSES IN SPECIAL SUBJECTS

1. *Allergy.* A comprehensive consideration of allergy with special reference to the differentiation and diagnosis of allergic diseases, the methods for discovering the cause and the technique

of specific and non-specific treatment. The work will consist of discussion and conferences together with practical work in the clinic and in the laboratory. There will be demonstrations of methods of skin tests, the use of elimination diets, preparation of materials, et cetera. Beginning on July 13, the course will occupy two hours on two mornings a week for four weeks, two hours on two afternoons a week for two weeks and four afternoons a week for two weeks, a total of about 40 hours.

Tuition, \$50.00.

DRS. EDNA PENNINGTON AND CLARENCE THOMAS.

2. *Metabolic and Endocrine Diseases.* A course of didactic and practical experience in the clinic with the various endocrine and metabolic diseases. The course will occupy two mornings on four days a week for two weeks from July 31 through August 8, a total of 16 hours.

Tuition, \$25.00.

DRS. R. C. DERIVAUX AND ALBERT WEINSTEIN.

3. *Diseases of the Chest.* Discussion and practical training in the clinic in chest diseases with particular reference to tuberculosis and the use of pneumothorax. The course will occupy two hours on four mornings a week for two weeks from July 27 through August 8, a total of about 16 hours.

Tuition, \$25.00.

DR. HOLLIS JOHNSON.

4. *Diseases of the Blood.* Didactic and clinical presentation of the present status of the various blood diseases together with practical laboratory work in the methods for examination of the blood. The course will occupy two hours on three afternoons a week for two weeks from July 13 through July 25, a total of 12 hours.

Tuition, \$25.00.

DR. EDGAR JONES.

5. *Diseases of the Heart.* Ten hourly lectures and demonstrations on the etiology, diagnosis and treatment of heart disease during the period of July 27 to August 8. This course will not be given unless a minimum of ten apply and attend. For this course only, a deposit of \$5.00 with the application will be required. Deposits will be returned and applicants notified if a minimum number do not elect this course.

Tuition, \$15.00.

DR. TINSLEY R. HARRISON.

Any or all of the five intensive courses may be taken.

SPECIAL COURSES

Facilities are available for a very limited number of physicians desiring to pursue special work in various departments. In general these opportunities are open only to those able to pursue their studies over a rather extended period, and are made available by special arrangement. Inquiries may be addressed to the Registrar of the Medical School.

STUDENTS 1935-1936

The members of the fourth-year class, as listed below, received the degree of Doctor of Medicine on June 10, 1936.

ANDREWS, KENNETH R.	Lexington, Kentucky
B. A., University of Kentucky, 1932.	
BLACK, HOWARD A., JR.	Brooklyn, New York
B. S., Carson-Newman College, 1933.	
BLANCO, RAFAEL A.	Santurce, Puerto Rico
B. S., University of Puerto Rico, 1932.	
BOLLING, HARLIS O.	Milligan, Tennessee
B. S., Milligan College, 1932.	
BUNDY, WILLIAM L.	Fayetteville, North Carolina
B. A., Duke University, 1932.	
CALDWELL, ELIZA	Danville, Kentucky
B. A., Centre College, 1932.	
CALLAWAY, LEA	Maryville, Tennessee
B. A., Maryville College, 1932.	
CARLSON, GEORGE C.	Quitman, Mississippi
B. S., University of Mississippi, 1934.	
COGAN, MICHAEL A.	Holyoke, Massachusetts
B. A., Dartmouth College, 1930.	
COOK, WILLIAM N.	Pulaski, Tennessee
B. A., Vanderbilt University, 1933.	
CULBERTSON, JOHN A.	Bedford, Ohio
B. A., College of Wooster, 1932.	
DANIEL, ALONZO W.	Nashville, Tennessee
B. A., Vanderbilt University, 1933.	
DEUR, THEODORE R.	Fremont, Michigan
B. A., Calvin College, 1933.	
DICKS, GEORGE D.	Natchez, Mississippi
B. S., Mississippi A. and M. College, 1927.	
DUFF, PRICE H.	Nashville, Tennessee
B. A., Vanderbilt University, 1933.	
ELLIS, FRANK F., JR.	Birmingham, Alabama
B. A., Washington and Lee University, 1932.	
EVANS, WILLIAM W., JR.	Chattanooga, Tennessee
B. S., University of Chattanooga, 1932.	
FINK, EMMA SLOOP	Crossnore, North Carolina
B. A., Duke University, 1933.	
HALE, THOMAS, JR.	Tucson, Arizona
B. A., Princeton University, 1927.	
LL. B., Columbia University, 1930.	
HAMILTON, EARL E.	Grand Rapids, Michigan
B. S., Michigan State College, 1931.	
HARVIE, KATHERINE C.	New York, New York
B. A., Smith College, 1932.	

- HUMBERT, WALTER C.-----Washington, Pennsylvania
B. S., Washington and Jefferson College, 1929.
- HUME, JOHN C.-----Troy, New York
B. A., Princeton University, 1932.
- IRBY, PRATT-----Holly Springs, Mississippi
B. S., University of Mississippi, 1934.
- JOHNSON, RALPH G.-----El Campo, Texas
B. A., Rice Institute, 1929.
- JOHNSTON, WILLIAM O.-----Charlotte, North Carolina
B. S., The Citadel, 1932.
- LAW, OTIS H.-----Fairbury, Illinois
B. S., Illinois Wesleyan University, 1932.
- LEE, WALTER JEROME, JR.-----Nashville, Tennessee
B. S., Carson-Newman College, 1932.
- LICHTER, GERALD I.-----Dorchester, Massachusetts
B. S., Boston University, 1929.
- LIPSTEIN, WILLIAM-----Newark, New Jersey
B. A., State University of Iowa, 1932.
- LOWE, CHARLES T.-----Nashville, Tennessee
B. A., Vanderbilt University, 1932.
- MARKS, RICHARD L.-----Nashville, Tennessee
B. A., Cornell University, 1933.
- MEIER, JOHN S.-----Danville, Kentucky
B. A., Centre College, 1933.
- ODELL, D. DOUGLAS-----Essex Fells, New Jersey
B. A., Vanderbilt University, 1933.
- OWEN, WILLIAM K.-----Nashville, Tennessee
B. A., Duke University, 1931.
- PATTON, ERNEST W., II-----Chattanooga, Tennessee
B. A., Vanderbilt University, 1933.
- PLUM, JOHN B.-----Grand Rapids, Michigan
B. A., Calvin College, 1933.
- PRESTON, WILLIAM O.-----Lexington, Kentucky
B. A., University of Kentucky, 1932.
- PRYOR, GEORGE E., JR.-----Stamford, Texas
B. A., Vanderbilt University, 1933.
- ROBBINS, BALLARD F.-----Berea, Kentucky
B. A., University of Kentucky, 1929.
- ROSENFELD, LOUIS-----Nashville, Tennessee
B. A., Vanderbilt University, 1933.
- SCALES, HUNTER L., JR.-----Starkville, Mississippi
B. S., Mississippi A. and M. College, 1932.
- SMALL, VIRGINIA-----Indianapolis, Indiana
B. S., Butler University, 1928.
M. A., University of Wisconsin, 1930.
- THACH, ANDREW B., JR.-----Nashville, Tennessee
B. A., Vanderbilt University, 1933.
- TURNER, MILLER F.-----Nashville, Tennessee
B. A., Centre College, 1932.
- VAUGHAN, W. MUNTER, JR.-----Montgomery, Alabama
B. A., Vanderbilt University, 1929.

WALKER, ETHEL.....	Nashville, Tennessee
B. A., Vassar College, 1931.	
M. A., Vanderbilt University, 1933.	
WARREN, B. HUBERT.....	Hopkinsville, Kentucky
B. A., University of Kentucky, 1932.	
WATKINS, HORACE C.....	Quitman, Mississippi
B. S., University of Mississippi.	
WATTLES, WALDO M.....	Nashville, Tennessee
B. A., Vanderbilt University, 1932.	
WILLIAMS, CLAIBORNE.....	Bridgeport, Alabama
B. A., University of Alabama, 1932.	
WINDHAM, HAL.....	Hickory, Mississippi
B. S., University of Mississippi, 1933.	

Third-Year Class

ASHLEY, ALTA.....	Allston, Massachusetts
B. A., Mt. Holyoke College, 1927.	
M. S., University of Cincinnati, 1930.	
Ph. D., University of Cincinnati, 1932.	
AUSTIN, FREDERICK D., JR.....	Charlotte, North Carolina
B. S., The Citadel, 1933.	
AUTEN, DONALD R.....	Pontiac, Michigan
B. A., University of Kentucky, 1932.	
BARBEE, JOHN Y.....	Scottsville, Kentucky
B. S., Western Kentucky Teachers College, 1933.	
BARCLAY, ALEXANDER, JR.....	Coeur d'Alene, Idaho
B. S., University of Washington, 1932.	
BERSON, ROBERT C.....	Brownsville, Tennessee
B. A., Vanderbilt University, 1934.	
BLACKWELL, CLAUDE C.....	Birmingham, Alabama
B. S., Birmingham-Southern College, 1934.	
BRASK, H. KERMIT.....	Lacon, Illinois
B. S., University of Michigan, 1933.	
BROWN, EDWIN H.....	Cleveland, Ohio
B. A., Western Reserve University, 1933.	
CAMPBELL, ALICE B.....	Pasadena, California
B. A., Mills College, 1933.	
CANNON, EUGENE B.....	Roanoke Rapids, North Carolina
B. S., Davidson College, 1933.	
CRUTCHER, RICHARD.....	Lexington, Kentucky
B. S., University of Kentucky, 1934.	
CULVER, WESLEY Y.....	Westhampton Beach, New York
B. A., Maryville College, 1933.	
DAVIS, WILLIAM W.....	Parkersburg, West Virginia
B. S., University of Michigan, 1933.	
DIDCOCK, JOHN WILLIAM.....	Nashville, Tennessee
B. A., Vanderbilt University, 1933.	
DISEKER, THOMAS H.....	Converse, South Carolina
B. A., Wofford College, 1933.	
ELDER, ROBERT H.....	Manchester, Tennessee
B. S., Milligan College, 1933.	

FORMAN, WILEY L.	-----	Lexington, Kentucky
B. A., University of Kentucky, 1931.		
FOWLER, JAMES T., JR.	-----	Florence, South Carolina
B. A., Wofford College, 1933.		
FOX, DENNIS B.	-----	Randleman, North Carolina
B. S., University of North Carolina, 1935.		
FUNK, JESSE T.	-----	Bowling Green, Kentucky
B. S., Western Kentucky Teachers College, 1934.		
GARD, DELMAR R.	-----	Massillon, Ohio
B. S., Mt. Union College, 1932.		
GOLDSBERRY, JAMES E.	-----	Gorham, North Dakota
B. A., University of North Dakota, 1931.		
B. S., University of North Dakota, 1935.		
M. A., University of North Dakota, 1934.		
HARRELL, SAMUEL C.	-----	Crane, Texas
B. S., Trinity University, 1932.		
HAYNIE, HAROLD C.	-----	Nashville, Tennessee
B. A., Vanderbilt University, 1934.		
HENDLEY, ROY L.	-----	Springfield, Tennessee
B. S., Carson-Newman College, 1933.		
HIRSHBERG, HOWARD A.	-----	Saginaw, Michigan
B. S., Alma College, 1934.		
HOWELL, JOHN B., JR.	-----	Canton, Mississippi
B. A., Millsaps College, 1933.		
HUBBARD, GEORGE B.	-----	Princeton, Kentucky
B. S., Western Kentucky Teachers College, 1933.		
JETER, ROBERT M.	-----	Nashville, Tennessee
B. A., Vanderbilt University, 1934.		
LEATHERS, JAMES P.	-----	Nashville, Tennessee
B. A., Vanderbilt University, 1933.		
LOGLER, FRANK J.	-----	Newport, Rhode Island
B. S., Rhode Island State College, 1933.		
MCATEE, OTT B.	-----	Lexington, Kentucky
B. A., University of Kentucky, 1930.		
NEWELL, WALDO B., JR.	-----	Enid, Oklahoma
B. A., Phillips University, 1933.		
PARR, LUTHER H.	-----	Silver Grove, Kentucky
B. S., University of Kentucky, 1933.		
RICE, JOHN RALPH	-----	Hopkinsville, Kentucky
B. A., University of Kentucky, 1933.		
RICHMOND, SAMUEL V.	-----	Russellville, Arkansas
B. A., Hendrix College, 1933.		
SAPPINGTON, THOMAS A.	-----	Fort Gaines, Georgia
B. A., Vanderbilt University, 1934.		
SCOTT, WILLIAM S.	-----	Jonesville, South Carolina
B. S., University of South Carolina, 1933.		
SEWELL, PRICE, JR.	-----	Jackson, Kentucky
B. A., University of Kentucky, 1933.		
STEADMAN, RAYMOND A.	-----	Welch, West Virginia
B. S., Davidson College, 1933.		
STERN, GEORGE	-----	New York, New York
B. S., University of Kentucky, 1934.		

STUBBINS, WILLIAM M.	-----	Birmingham, Alabama
B. S., Birmingham-Southern College, 1934.		
TENNENBAUM, OSCAR	-----	New York, New York
B. A., Vanderbilt University, 1934.		
THURSTON, DONALD, L. E.	-----	St. Louis, Missouri
B. A., Vanderbilt University, 1934.		
ULMER, JACK	-----	Gulfport, Mississippi
B. A., Mississippi College, 1933.		
WERTER, NATHAN	-----	Brooklyn, New York
B. A., Brooklyn College, 1933.		
WILLIAMS, RHODERICK T.	-----	Greenville, North Carolina
B. S., University of North Carolina, 1935.		
YANCEY, CHARLES R.	-----	Hopkinsville, Kentucky
B. S., University of Kentucky, 1934.		
ZIMMERMAN, PAUL A.	-----	Miami, Florida
B. S., University of Florida, 1932.		
ZINK, PEARL L.	-----	Menomonee Falls, Wisconsin
B. S., University of Kentucky, 1934.		

Second-Year Class

ADAMS, JOHN W., JR.	-----	Chandler, Oklahoma
B. A., Vanderbilt University, 1935.		
ANGELUCCI, RALPH J.	-----	Lexington, Kentucky
B. S., University of Kentucky, 1934.		
BASS, ALLAN	-----	Lethbridge, Alberta Canada
B. A., Simpson College, 1931.		
M. S., Vanderbilt University, 1932.		
BELL, CATHERINE B.	-----	University, Mississippi
B. A., University of Mississippi, 1934.		
BOYKIN, JAMES T.	-----	Murfreesboro, Tennessee
B. S., Centenary College, 1929.		
M. S., Vanderbilt University, 1931.		
BREYER, AMY L.	-----	Nashville, Tennessee
B. A., Vanderbilt University, 1933.		
M. A., Vanderbilt University, 1934.		
BROWN, FRANK REID	-----	Greensboro, N. C.
B. A., Vanderbilt University, 1930.		
M. A., Vanderbilt University, 1934.		
BRUMMETT, CHESTER C.	-----	Middlesboro, Kentucky
B. A., Vanderbilt University, 1935.		
CASEY, DEE O.	-----	Tahlequah, Oklahoma
B. S., Northeast Teachers College, 1932.		
CAVE, WILLIAM H.	-----	Mt. Vernon, Illinois
B. A., University of Kentucky, 1933.		
CHAMBERS, BENJAMIN M.	-----	Johnson City, Tennessee
B. S., Milligan College, 1933.		
CHILES, DANIEL D.	-----	Little Blue, Missouri
B. A., Central College, 1934.		
DAVIS, CHARLES W., JR.	-----	Jackson, Tennessee
B. S., Union University, 1929.		
M. S., Iowa State College, 1931.		

- EVERS, HERBERT R.-----Repton, Alabama
B. S., Alabama Polytechnic Institute, 1934.
- FINKS, ROBERT M.-----Omaha, Nebraska
B. A., Westminster College, 1934.
- FITE, ARTHUR R., JR.-----Madison, Tennessee
B. A., Vanderbilt University, 1934.
- FOWLER, SHELTON F.-----Sumter, South Carolina
B. A., Berea College, 1934.
- FRAZIER, JOHN W., JR.-----Nashville, Tennessee
B. A., Vanderbilt University, 1934.
- FRYE, WILLIAM W.-----Nashville, Tennessee
B. S., Iowa Wesleyan College, 1926.
M. S., Iowa State College, 1927.
Ph. D., Iowa State College, 1931.
- GAMBLE, LYNE S.-----Greenville, Mississippi
B. S., Davidson College, 1934.
- HARVEY, GEORGE, JR.-----Canton, Mississippi
B. A., Vanderbilt University, 1935.
- HAZLEHURST, WILLIAM D.-----Nashville, Tennessee
B. A., Vanderbilt University, 1935.
- HESLINGTON, HURSTON F.-----Birmingham, Alabama
B. A., Birmingham-Southern College, 1934.
- JACKSON, J. TRUETT-----Montgomery, Alabama
B. A., Vanderbilt University, 1935.
- JARVIS, JACK R.-----Birmingham, Alabama
B. S., Birmingham-Southern College, 1934.
- KNICKERBOCKER, THOMAS W.-----Dallas, Texas
B. S., Southern Methodist University, 1934.
- MAYES, BEN R.-----Bethel, Tennessee
B. A., Lambuth College, 1935.
- MURPHEY, OWEN B.-----Lexington, Kentucky
B. S., University of Kentucky, 1934.
- OLSON, JOHN R.-----Grand Rapids, Michigan
B. A., Calvin College, 1935.
- OSTERGARD, ROBERT P.-----Canton, Ohio
B. S., Mt. Union College, 1934.
- OWENS, JAMES N., JR.-----Shawnee, Oklahoma
B. A., Oklahoma Baptist University, 1932.
- PATTERSON, JOSEPH H.-----Hendersonville, North Carolina
B. A., University of North Carolina, 1933.
- PHILLIPS, THOMAS TYLER-----Rockwood, Tennessee
B. A., University of Tennessee, 1932.
- PRICE, GEORGE W., JR.-----Spartanburg, South Carolina
B. A. Wofford College, 1934.
- RABOLD, BERNARD L.-----Bowling Green, Kentucky
B. S., Western Kentucky State Teachers College, 1935.
- RASKIND, ROBERT-----Newark, New Jersey
B. A., University of Pennsylvania, 1934.
- RAY, R. BEVERLEY-----Memphis, Tennessee
B. A., Vanderbilt University, 1935.
- SALYER, JOHN M.-----Nashville, Tennessee
B. A., Vanderbilt University, 1935.

SANDERS, ELMER K.	Birmingham, Alabama
B. S., Birmingham-Southern College, 1934.	
SAYERS, JOSEPH H.	Nashville, Tennessee
B. A., Vanderbilt University, 1935.	
SELFMAN, ALBERT	Mansfield, Ohio
B. A., Vanderbilt University, 1934.	
SHORNEY, BRIAN T.	Moline, Illinois
B. S., Illinois Wesleyan University, 1931.	
SMITH, JACK I.	Mooresville, Alabama
B. A., Vanderbilt University, 1934.	
SMITH, ROBERT W.	Owensboro, Kentucky
B. A., Vanderbilt University, 1935.	
STUCKEY, ANN D.	Experiment, Georgia
B. A., Vanderbilt University, 1934.	
TURNER, FENNEL P.	New York, New York
B. A., Vanderbilt University, 1935.	
WILKINSON, ERLE E.	Nashville, Tennessee
B. A., Vanderbilt University, 1935.	
WILKINS, WALTER E.	Mars Hill, North Carolina
A. B., Furman University, 1924.	
Ph. D., Vanderbilt University, 1933.	
WITHERS, HAYDEN W.	Paducah, Kentucky
B. A., University of Kentucky, 1935.	
WOLLENMAN, OSCAR, JR.	Carder, Missouri
B. S., Central College, 1934.	
WOOD, GEORGE O.	Campbellsville, Kentucky
B. A., Vanderbilt University, 1934.	
ZIRKLE, JOHN G.	Kingston, Tennessee
B. A., Tusculum College, 1933.	

First-Year Class

BAXTER, JAMES H.	Ashburn, Georgia
B. S., University of Georgia, 1935.	
BEGLEY, PHILLIP	Hyden, Kentucky
B. A., Berea College, 1935.	
BRANNON, EMMETT	Rome, Georgia
B. A., Davidson College, 1932.	
M. A., Vanderbilt University, 1935.	
BROWN, HARRY G.	Camden, New Jersey
B. S., Guilford College, 1935.	
BROWN, MARION G.	Lexington, Kentucky
B. A., University of Kentucky, 1935.	
BRYAN, WILLIAM LAMAR, JR.	Conway, South Carolina
B. S., University of South Carolina, 1935.	
BUCHHOLZ, RANSOM	Georgetown, Texas
B. A., Southwestern University, 1933.	
BURTON, THOMAS H., JR.	Portland, Tennessee
B. A., Vanderbilt University, 1935.	
BYRON, ROBIN ADAIR	Owingsville, Kentucky
B. A., Berea College, 1935.	

- CARMICHAEL, JOSIAH C.-----Birmingham, Alabama
B. S., Birmingham-Southern College, 1935.
- CUMMINS, SAMUEL D.-----Reform, Alabama
B. A., University of Alabama, 1935.
- DEWEY, KENT A.-----Grand Rapids, Michigan
B. A., Calvin College, 1935.
- DONALDSON, JAMES B.-----Jackson, Mississippi
B. S., Mississippi College, 1933.
- FELDER, JOHN LAWSON-----San Antonio, Texas
B. S., Texas University, 1935.
- FORD, SYLVESTER C.-----Lexington, Kentucky
B. S., University of Kentucky, 1936.
- FORT, GARTH E.-----Nashville, Tennessee
B. S., Virginia Military Institute, 1935.
- FREEDMAN, ARTHUR-----Baltimore, Maryland
B. A., Johns Hopkins University, 1928.
- FRIEND, HENRIETTA-----Knoxville, Tennessee
B. A., University of Michigan, 1935.
- GOVIER, WILLIAM M.-----Kalamazoo, Michigan
B. A., Kalamazoo College, 1935.
- GRIFFING, WALLER H.-----Lexington, Kentucky
B. A., University of Kentucky, 1936.
- GUFFEE, HARRY JASPER-----Franklin, Tennessee
B. A., Vanderbilt University, 1935.
- HARDYMON, PHILIP-----Maysville, Kentucky
B. S., University of Kentucky, 1935.
- HENNING, HAROLD B.-----Nashville, Tennessee
B. A., Vanderbilt University, 1936.
- HERBERT, WILLIAM JR.-----Spartanburg, South Carolina
B. A., Wofford College, 1935.
- HILLARD, IRVING RINGO-----Jackson, Tennessee
B. A., Lambuth College, 1934.
- JONES, HARRY D.-----Bristol, Tennessee
B. S., Carson-Newman College, 1931.

B. S., University of Oklahoma, 1931.
- MASTERS, ELIAS W.-----Anderson, South Carolina
B. S., University of South Carolina, 1935.
- MITCHELL, JOSEPH D., JR.-----Pawhuska, Oklahoma
B. S., Oklahoma University, 1935.
- MCCRACKEN, ROBERT L.-----Smithfield, Pa.
B. S., Wooster College, 1934.
- MCDUGAL, BOLIVAR SMITH-----Booneville, Mississippi
B. A., University of Illinois, 1935.

NEWTON, ISAAC J.	Wilmot, Arkansas
B. A., Vanderbilt University, 1935.	
NOELL, LIVINGSTON POPE	Little Rock, Arkansas
B. A., Vanderbilt University, 1936.	
PARNELL, HOMER S., JR.	Lamar, South Carolina
B. A., Wofford College, 1935.	
PATTERSON, ROBERT, JR.	Houston, Texas
B. A., Vanderbilt University, 1935.	
PHILLIPS, JAMES B., JR.	Chattanooga, Tennessee
B. S., University of Chattanooga, 1936.	
RICHARDSON, HERSCHEL E.	Georgetown, Texas
B. A., Southwestern University, 1935.	
ROULHAC, GEORGE E.	Florence, Alabama
B. A., Vanderbilt University, 1936.	
SWENSON, LEONARD C.	Bellmore, New York
B. A., Maryville College, 1935.	
THOMPSON, ROBERT F.	Columbia, Mississippi
B. A., Vanderbilt University, 1936.	
TURNER, ROBERT PHILLIPS	Smithville, Tennessee
B. A., Vanderbilt University, 1934.	
VEIHMAN, ARTHUR J.	Huntington, West Virginia
B. A., Marshall College, 1935.	
WHITE, BART N.	Murfreesboro, Tennessee
B. S., Duke University, 1935.	
WILKES, JOHN BURWELL	Durant, Mississippi
B. A., Vanderbilt University, 1936.	
WILLIAMS, WILLIAM L.	Spartanburg, South Carolina
B. S., Wofford College, 1935.	
WILSON, SHELBURN D.	Mountain City, Tennessee
B. S., Milligan College, 1934.	
YORK, DILLARD B.	Tampa, Florida
B. S., University of Tampa, 1935.	

POSTGRADUATES, 1935-1936

(Clinical Medicine)

JUNE 1, 1935 to MAY 31, 1936

BELL, WALTER A.	Vanleer, Tennessee
M. D., University of Nashville, 1911.	
JENKINS, EDWIN LLOYD	Soddy, Tennessee
M. D., Chattanooga Medical College, 1908.	
JONES, GARLAND FRANK	Jackson, Tennessee
M. D., Vanderbilt University, 1912.	
OLIVER, JAMES M.	Portland, Tennessee
M. D., Vanderbilt University, 1911.	
SMITH, ERNEST M.	Bethel Springs, Tennessee
M. D., University of Tennessee, 1913.	
STANDEFER, R. E.	Dunlap, Tennessee
M. D., Emory University Medical School, 1915.	
THOMAS, ROBERT F.	Sevierville, Tennessee
M. D., Syracuse University Medical School, 1924.	
WEAVER, HARTWELL	Dickson, Tennessee
M. D., Vanderbilt University, 1910.	
WHITE, J. BUFORD	Lewisburg, Tennessee
M. D., University of Nashville, 1905.	
WILSON, CHARLES P.	Sevierville, Tennessee
M. D., University of Louisville, 1917.	

Public Health

ADAMS, RICHARD M.	Oklahoma City, Oklahoma
M. D., University of Arkansas, 1934.	
AYMOND, BRANCH J.	Alexandria, Louisiana
M. D., St. Louis University, 1929.	
BIGGS, ROY H.	Vicksburg, Mississippi
M. D., Emory University, 1933.	
BREWSTER, BURKE C.	Fort Worth, Texas
M. D., Tulane University, 1929.	
BRYAN, ENOCH	Framington, Missouri
M. D., St. Louis University, 1926.	
BURNS, ARTHUR	Cuero, Texas
M. D., Johns Hopkins University, 1923.	
GERODETTI, ORLANDO F.	San Antonio, Texas
M. D., Tulane University, 1931.	
GRACE, JESSE K.	Danville, Arkansas
M. D., University of Arkansas, 1929.	
HALLER, EDWIN H.	New Orleans, Louisiana
M. D., Tulane University, 1922.	
HUDSON, HARRY H.	Smithville, Tennessee
M. D., University of Tennessee, 1934.	

JONES, RANSOM J.	Meridian, Mississippi
M. D., Emory University, 1932.	
LUCKE, EUGENE E.	Hannibal, Missouri
M. D., Washington University, 1912.	
MAST, GEORGE W.	Brookhaven, Mississippi
M. D., University of Tennessee, 1931.	
MC COIN, JOSEPH	Gainesboro, Tennessee
M. D., University of Tennessee, 1933.	
MCDUGAL, ALEXANDER C.	Saltillo, Tennessee
M. D., University of Tennessee, 1929.	
NICKSON, HUGH C.	Columbiana, Alabama
M. D., University of Louisville, 1932.	
NORRIS, JOHN G.	Choudrent, Louisiana
M. D., Tulane University, 1933.	
OWEN, HUBERT R.	Wedowee, Alabama
M. D., Northwestern Medical School, 1934.	
OWINGS, WILLIAM J. B.	Vernon, Alabama
M. D., Tulane University, 1932.	
RIEDEL, ROBERT H.	Osage City, Kansas
M. D., Washington University, 1928.	
STEFFEN, LAWRENCE F.	St. Mary's, Kansas
M. D., Northwestern University, 1932.	
TURNER, RAY JAMES	Little Rock, Arkansas
M. D., University of Arkansas, 1929.	
WHITESIDE, MAURICE S.	Cullman, Alabama
M. D., Tulane University, 1920.	
WOODRING, T. V.	Nashville, Tennessee
M. D., Vanderbilt University, 1915.	

Postgraduates Special

PLUNKETT, JOHN H.	Wagoner, Oklahoma
M. D., Vanderbilt University, 1912.	
GABALDON, ARNOLDO	Trujillo, Venezuela
M. D., Universidad Central de Venezuela.	

INTERNESHIIPS AND APPOINTMENTS, 1936

ANDREWS, KENNETH RIGDON, M. D.	St. Louis, Missouri
St. Mary's Hospital.	
BLACK, HOWARD A., JR., M. D.	Brooklyn, New York
Kings County Hospital.	
BLANCO, RAFAEL ANGEL, M. D.	Nashville, Tennessee
Nashville General Hospital.	
BOLLING, HARLIS OWEN, M. D.	Nashville, Tennessee
Nashville General Hospital.	
BUNDY, WILLIAM LUMSDEN, M. D.	Washington, D. C.
Emergency Hospital.	
CALDWELL, ELIZA HUNTON, M. D.	Durham, North Carolina
Duke University Hospital.	
CALLAWAY, LEA, M. D.	Rochester, New York
Rochester General Hospital.	
CARLSON, GEORGE CLARENCE, M. D.	Memphis, Tennessee
Baptist Memorial Hospital.	
COGAN, MICHAEL AARON, M. D.	Springfield, Massachusetts
Mercy Hospital.	
COOK, WILLIAM NORVEL, M. D.	New Orleans, Louisiana
Charity Hospital.	
CULBERTSON, JOHN A., M. D.	Camp Beauragard, Louisiana
U. S. Army C. C. C. Camp.	
DANIEL, ALONZO WELLS, M. D.	Nashville, Tennessee
Vanderbilt University Hospital.	
DEUR, THEODORE R., M. D.	Des Moines, Iowa
Iowa Methodist Hospital.	
DICKS, GEORGE DUNCAN, M. D.	Baltimore, Maryland
Union Memorial Hospital.	
DUFF, PRICE HOPE, M. D.	San Francisco, California
Southern Pacific Hospital.	
ELLIS, FRANK FEARN, JR., M. D.	Pittsburgh, Pennsylvania
Western Pennsylvania Hospital.	
EVANS, WILLIAM WALKER, JR., M. D.	Atlanta, Georgia
Piedmont Hospital.	
FINK, EMMA SLOOP, M. D.	Pittsburgh, Pennsylvania
Pittsburgh University Hospitals.	
HALE, THOMAS, JR., M. D.	New Haven, Connecticut
New Haven Hospital.	
HAMILTON, EARL ELLSWORTH, M. D.	Nashville, Tennessee
Nashville General Hospital.	
HARVIE, KATHERINE CHAMBERLAYNE, M. D.	San Francisco, California
Children's Hospital.	
HUMBERT, WALTER COWDEN, M. D.	Camp Beauragard, Louisiana
U. S. Army C. C. C. Camp.	
HUME, JOHN C., M. D.	Nashville, Tennessee
Vanderbilt University Hospital.	
IRBY, PRATT, M. D.	Charlottesville, Virginia
University of Virginia Hospital.	
JOHNSON, RALPH GRANT, M. D.	Nashville, Tennessee
Davidson County Tuberculosis Hospital.	

JOHNSTON, WILLIAM OLIVER, M. D.	Washington, D. C.
Central Dispensary and Emergency Hospital.	
LAW, OTIS H., M. D.	Miami, Florida
James Jackson Memorial Hospital.	
LEE, WALTER JEROME, M. D.	El Paso, Texas
El Paso City-County Hospital.	
LICHTER, GERALD ISRAEL, M. D.	Boston, Massachusetts
Boston City Hospital.	
LIPSTEIN, WILLIAM, M. D.	Newark, New Jersey
Beth Israel Hospital.	
LOWE, CHARLES THOMAS, M. D.	Nashville, Tennessee
Vanderbilt University Hospital.	
MARKS, RICHARD LEWIS, M. D.	Cincinnati, Ohio
Jewish Hospital.	
MEIER, JOHN STONE, M. D.	Wheeling, West Virginia
Ohio Valley General Hospital.	
ODELL, D. DOUGLAS, M. D.	New York, New York
Metropolitan Hospital.	
OWEN, WILLIAM KENDRICK, M. D.	Nashville, Tennessee
Nashville General Hospital.	
PATTON, E. WHITE, II, M. D.	Rochester, New York
Strong Memorial Hospital.	
PLUM, JOHN B., M. D.	Nashville, Tennessee
Davidson County Tuberculosis Hospital.	
PRESTON, WILLIAM O., M. D.	Nashville, Tennessee
St. Thomas Hospital.	
PRYOR, GEORGE EDGAR, JR., M. D.	Nashville, Tennessee
St. Thomas Hospital.	
ROBBINS, BALLARD FRANK, M. D.	Birmingham, Alabama
Hillman Hospital.	
ROSENFELD, LOUIS, M. D.	Nashville, Tennessee
Vanderbilt University Hospital.	
SCALES, HUNTER LEDBETTER, JR., M. D.	Nashville, Tennessee
Vanderbilt University Hospital.	
SMALL, VIRGINIA, M. D.	Rochester, New York
Strong Memorial Hospital.	
THACH, ANDREW BLAINE, JR., M. D.	Jacksonville, Florida
Duval County Hospital.

St. Thomas Hospital.	
VAUGHAN, WINSTON HUNTER, JR., M. D.	El Paso, Texas
William Beaumont General Hospital.	
WALKER, ETHEL, M. D.	Baltimore, Maryland
Johns Hopkins Hospital.	
WAREN, BENJAMIN HUBERT, M. D.	Nashville, Tennessee
St. Thomas Hospital.	
WATKINS, HORACE CLEMENT, JR., M. D.	Charleston, South Carolina
Roper Hospital.	
WATTLES, WALDO MASON, M. D.	Montreal, Quebec, Canada
Children's Memorial Hospital.	
WILLIAMS, CLAIBORNE, M. D.	Iowa City, Iowa
State University of Iowa Hospitals.	
WINDHAM, HAL, M. D.	Grand Rapids, Michigan
Butterworth Hospital.	

HONORS

FOUNDER'S MEDAL

ETHEL WALKER.....Nashville, Tennessee

THE BEAUCHAMP SCHOLARSHIP

Awarded in the School of Medicine in the Department of Neurology

WALTER COWDEN HUMBERT.....Washington, Pennsylvania

THE WILLIAM LITTERER PRIZE

Awarded for excellence in the Department of Bacteriology

WALTER COWDEN HUMBERT.....Washington, Pennsylvania

ALPHA OMEGA ALPHA

Scholarship Society of the School of Medicine

Fourth-Year Class

BLANCO, RAFAEL ANGEL.....Santurce, Puerto Rico
 HALE, THOMAS, JR.....Tucson, Arizona
 LIPSTEIN, WILLIAM.....Newark, New Jersey
 MARKS, RICHARD LEWIS.....Nashville, Tennessee
 ODELL, D. DOUGLAS.....Essex Fells, New Jersey
 PATTON, E. WHITE, II.....Chattanooga, Tennessee
 ROSENFELD, LOUIS.....Nashville, Tennessee
 WALKER, ETHEL.....Nashville, Tennessee
 WILLIAMS, CLAIBORNE.....Bridgeport, Alabama

Third-Year Class

FORMAN, WILEY L.....Lexington, Kentucky
 HIRSHBERG, HOWARD A.....Saginaw, Michigan
 WERTER, NATHAN.....Brooklyn, New York

SCHEDULE OF COURSES—1936-1937

FIRST YEAR—FIRST SEMESTER

September 24 to January 30, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:30-11:30	Gross Anatomy	Gross Anatomy	Gross Anatomy	Gross Anatomy	Gross Anatomy	Gross Anatomy
11:30-12:30		Gross Anatomy	*Psychobiology	Histology		
1:30-3:30	Histology	Histology		Gross Anatomy	Neurology	
3:30-4:30	Histology				Neurology	

*Eleven lectures.

FIRST YEAR—SECOND SEMESTER
February 1 to May 28, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:30-9:30	Biochemistry	Physiology	Biochemistry	Physiology	Biochemistry	Physiology
9:30-12:30	Biochemistry	Physiology	Biochemistry	Physiology	Biochemistry	Physiology
1:30-4:30	Biochemistry	Physiology		Physiology	Biochemistry	

Note: During the first two weeks of the semester the Department of Biochemistry will use all of the scheduled time of the student; during the last two weeks of the semester the Department of Physiology will use all of the scheduled time of the student.

SECOND YEAR—FIRST TRIMESTER
September 24 to December 5, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:30-11:30	Pathology	Pathology	Pathology	Pathology	Pathology	Bacteriology
11:30-12:30	Bacteriology		Bacteriology		Bacteriology	
1:30-4:30	Bacteriology		Bacteriology		Bacteriology	

SECOND YEAR—SECOND TRIMESTER

December 7 to March 13, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:30-10:30	Neurology	Pathology	Pharmacology	Neurology	Pathology	Pathology
10:30-11:30				Clinical Pathology		
11:30-12:30	Pharmacology			Pharmacology		Pharmacology
1:30-4:30	Pathology	Clinical Pathology	Pharmacology		Clinical Pathology	

SECOND YEAR—THIRD TRIMESTER
March 15 to May 28, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:30-9:30	Introduction to Surgery	Optional*	Introduction to Surgery	Optional*	Physical Diagnosis in Surgery	Introduction to Surgery
9:30-10:30						
10:30-11:30	Parasitic Diseases		Obstetrics		Parasitic Diseases	Obstetrics
11:30-12:30						
		Medical Clinic	Optional			Physical Diagnosis
1:30-4:30	Physical Diagnosis		Physical Diagnosis		Physical Diagnosis	

*Students must take Applied Anatomy or substitute an equivalent elective.

THIRD YEAR—SECOND TRIMESTER

December 7 to March 13, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:30-11:30	Group A. —Surgical Ward Work Group B. —One-half group, Nashville General Hospital One-half group, Ward work, (Sub-groups interchange at middle of trimester.) Group C. —Medical Ward Work			Mon., Wed., and Fri. Tues., Thurs., and Sat.—	8:30-10:00 Pediatrics. 10:00-11:30 Obstetrics.* Wednesday 10:00-11:00. 8:30-11:30 Pediatrics.	
11:30-12:30	Obstetrics	Surgery	Medicine	Obstetrics	Surgery	Medicine
1:30-2:30	Surgical Pathology	Optional except half of Group B. Obstetrics	Psychiatry	Optional except half of Group B. Obstetrics	Ward Work except half of Group B. Obstetrics	Obstetrics
Optional						
Clinical Pathological Conference						
2:30-3:30						
3:30-4:30						

*Students are assigned in pairs for out-patient deliveries beginning February 1, 1936.

THIRD YEAR—THIRD TRIMESTER

March 15 to May 28, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:30-11:30	<p>Group A.—One-half group, Nashville General Hospital One-half group, Ward work, { Mon., Wed., and Fri. { 8:30-10:00 Pediatrics. { 10:00-11:30 Obstetrics. { Wednesday 10:00-11:00. { Tues., Thurs., and Sat.— 8:30-11:30 Pediatrics.</p> <p>Group B.—Medical Ward Work Group C.—Surgical Ward Work (Sub-groups interchange at middle of trimester.)</p>					
11:30-12:30	Obstetrics	Surgery	Medicine	Neurology	Surgery	Neurology
1:30-2:30	Surgical Pathology	Optional except half of Group A. Obstetrics	Psychiatry	Optional except half of Group A. Obstetrics	Ward Work except half of Group A. Obstetrics	Obstetrics
2:30-3:30			Optional			
3:30-4:30			Clinical Pathological Conference			

FOURTH YEAR—FIRST TRIMESTER
September 24 to December 5, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:00-9:00	Pediatrics	Preventive Medicine	Surgery	Preventive Medicine	Orthopedic Surgery	Dermatology
9:00-11:30	Group A. —Gynecology and Electives *Subgroup 1. Gynecology Subgroup 2. Elective or Optional Work required Group B. Medical Out-Patient Work, including Neurology and Dermatology Group C. Surgical Out-Patient Work, including Orthopedics and Urology *Subgroup 1. General Surgery Subgroup 2. Surgical Specialties					
11:30-12:30	Obstetrics and Gynecology	Surgery	Medicine	Pediatrics	Surgery	Medicine
1:30-3:30	Preventive Medicine and Public Health	Group A. *Subgroup 1. Gynecology Ward Work Subgroup 2. Pediatrics Group B. Electives and Optional Work Group C. *Subgroup 1. Electives and Optional Work Subgroup 2. Ophthalmology and Otolaryngology				
3:30-4:30		Otolaryngology	Clinical Pathological Conference	History of Medicine**		

*Subgroups interchange at middle of trimester.

**Course ends December 20, 1935.

FOURTH YEAR—SECOND TRIMESTER

December 7 to March 13, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:00-9:00	Pediatrics	Preventive Medicine	Ophthalmology	Preventive Medicine	Urology	Gynecology
9:00-11:30	Group A. Group B. *Subgroup 1. Subgroup 2. Group C. *Subgroup 1. Subgroup 2.	Medical Out-Patient Work, Surgical Out-Patient Work, General Surgery Surgical Specialties Gynecology and Electives Gynecology Elective or Optional Work required	Medical Out-Patient Work, including Neurology and Dermatology Surgical Out-Patient Work, including Orthopedics and Urology.			
11:30-12:30	Obstetrics and Gynecology	Surgery	Medicine	Pediatrics	Surgery	Medicine
1:30-3:30	Preventive Medicine and Public Health	Group A. Electives and Optional Work Group B. *Subgroup 1. Electives and Optional Work Subgroup 2. Ophthalmology and Otolaryngology Group C. *Subgroup 1. Gynecology Ward Work Subgroup 2. Pediatrics				
3:30-4:30		Immunology and Serology	Clinical Pathological Conference		Immunology and Serology	

*Subgroups interchange at middle of trimester.

FOURTH YEAR—THIRD TRIMESTER

March 15 to May 28, inclusive

Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
8:00-9:00	Radiology	Therapeutics	Ophthalmology	Gynecology	Urology	Therapeutics
9:00-11:30	Group A. Surgical Out-Patient Work *Subgroup 1. General Surgery Subgroup 2. Surgical Specialties Group B. Gynecology and Electives *Subgroup 1. Gynecology Subgroup 2. Elective and Optional Work required Group C. Medical Out-Patient Work, including Neurology and Dermatology					
11:30-12:30	Obstetrics and Gynecology	Surgery	Medicine	Pediatrics	Surgery	Medicine
1:30-3:30	Psychiatry	Group A. *Subgroup 1. Electives and Optional Work Subgroup 2. Ophthalmology and Otolaryngology Group B. *Subgroup 1. Gynecology Ward Work Subgroup 2. Pediatrics Group C. Electives and Optional Work				
3:30-4:30			Clinical Pathological Conference		Medical Jurisprudence	

*Subgroups interchange at middle of trimester.

SCHEDULE OF ELECTIVE COURSES*

Tuesday and Thursday Afternoons

During each trimester unless otherwise indicated.
