

NMR STUDIES OF AN α,β -UNSATURATED ALDEHYDE-DERIVED
INTERSTRAND CARBINOLAMINE DNA CROSS-LINK IN THE 5'-CpG-3'
SEQUENCE

By

Young-Jin Cho

Dissertation

Submitted to the Faculty of the
Graduate School of Vanderbilt University
in partial fulfillment of the requirements
for the degree of

DOCTOR OF PHILOSOPHY

in

Chemistry

May, 2006

Nashville, Tennessee

Approved:

Professor Michael P. Stone

Professor Carmelo J. Rizzo

Professor Charles R. Sanders

Professor Sandra J. Rosenthal

Professor Terry P. Lybrand
