Works by Florovsky, Georges.

Florovsky, Georges. *The Collected Works of Georges Florovsky* [Hereafter cited as CW, I, CW, II etc.]. Gen. Ed. Richard Haugh. Vaduz, Liechtenstein/Belmont, MA.: Büchervertriebsanstalt, 1974-89. (The volumes of the *Collected Works* should be treated with caution after Volume II as there are extensive translation and editorial problems in almost all the volumes especially the last two volumes on ecumenism (XIII-XIV). Arguably, excluding his monograph *Ways of Russian Theology*, Florovsky's most seminal works are essays and they are collected in the first four volumes of his *Collected Works*. When available, the original publication is to be preferred. For a detailed bibliography see Blane, *George Florovsky*, pp.341-436.)
